CEO's Statement

**Prasheem
Seebran**

Chief Executive Officer
and Managing Director,
MCIS Insurance Berhad

Dear Valued Policyholders,

Thank you for your continued trust in MCIS Life, particularly in our range of Investment-Linked (IL) funds that support the long term growth of your life policies with us.

Throughout the years, we have always focused on prudent investment choices that are backed by strong and well-researched strategies to manage your chosen portfolio of funds.

CEO's Statement (cont'd.)

On a specific note, 2019 marked a momentous year for us at MCIS Life; our re-branding exercise elevated our brand presence and spurred the continuous efforts in innovation and delivery of our products and services to a wider group of customers.

The rebranding is but a start to many more initiatives that we will continue to introduce to the market and most importantly, it reinforces our core business purpose of helping you achieve financial security supported by investments that generate consistent and sustainable returns.

In this annual IL report, we are sharing highlights of economic developments which typically influenced the performance of our funds, for the financial period ending 31 December 2019.

Economic Backdrop

Global economic activities remained weak and grew at a moderate pace in the final quarter of 2019. The International Monetary Fund (IMF) estimated slower global GDP growth at 2.9% for 2019, compared with 3.0% growth in 2018, reflecting global economic uncertainties including trade policies, geopolitical tensions and negative surprises in a few emerging economies.

Despite the headwinds, market sentiments received a boost through tentative signs that global growth may be bottoming out as the end of 2019 indicated a pick-up in manufacturing and global trade activities alongside monetary easing which occurred in the second half of the year in several economies. There were also some favourable news leading to a retreat from the risk-off environment, namely the US-China trade negotiations and the no-deal Brexit development.

In the US, the fourth quarter of 2019 saw improved growth to 2.3%, compared with 2.1% in the third quarter, supported by higher public spending and lower imports. Growth in most regional economies also improved marginally, with early signs of recovery in exports and sustained domestic demand. Meanwhile, growth in China stayed at 6.0% in the fourth quarter, thanks to mainly stronger investments amid a pickup in production activities. China's exports rebounded to a positive 1.9%, compared with a contraction of -0.3% in the previous quarter, supported by a higher demand from the ASEAN economies and the European Union (EU). In Singapore, growth recorded a marginal uptick, due to improved exports, especially to the region and the US.

CEO's Statement (cont'd.)

Brent crude oil price remained steady at USD62 per barrel in the fourth quarter of 2019 as the extension of voluntary output cuts by The Organization of the Petroleum Exporting Countries (OPEC) and heightened geopolitical tensions in the Middle East more than offset the moderating global oil demand conditions.

For Malaysia, the economy grew by 3.6% in the fourth quarter of 2019, lower than the 4.4% recorded in the third quarter while on an annual basis, 2019's GDP grew by 4.3% as compared to 4.7% recorded in 2018. This was supported by domestic demand which expanded by 4.9% and higher private sector spending which increased by 7.4%. However, decline in gross exports, which contracted by 3.3%, weighed by decline in both manufacturing and commodity exports, pushed down the overall growth. Meanwhile, gross imports declined at a slower pace of 4.0% mainly due to a positive turnaround in intermediate imports and a smaller contraction in capital imports.

Headline inflation, as measured by the annual percentage change in the Consumer Price Index (CPI), decreased to 1.0% in the fourth quarter 2019, from 1.3% in the third quarter of 2019. The lower inflation outcome mainly reflected the lapse in the impact of the SST implementation. Fuel inflation continued to have a negative contribution as domestic retail fuel price ceilings were maintained. Core inflation was stable at 1.4%, reflecting the absence of strong demand pressures in the economy, amid moderate expansions in private sector wages. On an annual basis, headline inflation for the year stood at 0.7% as compared to 1.0% for the year 2018.

Into the first quarter of 2020, the COVID-19 pandemic did not slow down and led to domestic and international travel restrictions as well as extensions to the Lunar New Year holiday for many businesses in the manufacturing sector, which further suppressed private sector activities. The lockdown in some parts of the world, movement control order for example in Malaysia, paralysed some of the business sectors in the affected countries. Governments of the affected countries have rolled out several measures such as interest rate cuts and financial aid to its people to cushion the blow from this pandemic. However, this might not be sufficient and there will be no surprises if some economies might fall into recession in some quarters of 2020. The economic activities might resume but struggle to get back to normal in the second half of the year. With overall global growth set to be limited this year, it will be a tough year for Malaysia and also all over the world.

CEO's Statement (cont'd.)

Financial Market Performance

Global equity markets marked 2019 as their best year in a decade. The MSCI World Index, which tracks stocks across developed countries jumped by almost 24% on a yearly basis. The strongest performance since 2009 was supported by a surge in US technology giants and sterling recovery in the Eurozone and some Asian markets.

The S&P 500 index of top US companies surged by 28% for the year 2019, hitting a series of record highs, as the US president, Donald Trump, announced the US-China first phase trade deal. The Dow Jones Industrial Average also surged 23.76% in 2019. The three interest rate cuts in the year have also supported sentiments on US growth prospects.

UK's FTSE 100 Index jumped 12% on a yearly basis for the year 2019, the best performance in three years, thanks to the inflow of funds towards the end of the year. The positive sentiments came in after the decisive victory in the UK's general election held in December, which fuelled optimism that the ruling party could complete Brexit, ending the uncertainty that has repelled investors.

Eurozone stocks also outperformed, with Germany's DAX Index and France's CAC Index both up by 25%. China's CSI 300 stock index romped ahead by 36% in the year 2019 as Beijing cut borrowing costs and hiked spending on construction and infrastructure projects.

Locally, the overall performance of the Malaysian equity market was still negative where the FBMKLCI Index closed -6.02% at 1,588.7 points. Corporate earnings in the third quarter of 2019 were still weak and posted below market expectations, suggesting that the operating environment remains challenging. Foreign funds have taken out RM11 billion worth of local equities in 2019, slightly lower than the total foreign outflow of RM11.69 billion recorded in 2018.

CEO's Statement (cont'd.)

In terms of the local bond market, Bank Negara Malaysia (BNM) has maintained its dovish monetary stance throughout 2019, with a 25-bps Overnight Policy Rate (OPR) cut to 3.00% in May 2019 and a 50-bps Statutory Reserve Requirement (SRR) cut to 3.00% in November 2019. The local monetary policy was largely in line with global monetary easing trend where the US Fed cut its interest rate 3 times in the year amid the US-China trade war and geopolitical tension in the Middle-East region. Moving forward, BNM is expected to maintain its dovish tone in 2020, given weaker economic prospects arising from the COVID-19 worldwide pandemic outbreak.

Malaysian Government Securities' (MGS) performance rallied strong throughout 2019 with the 10-Year MGS yield moving down by circa ~77bps. The bond rally was mainly driven by the dovish monetary policy as well as gloomy economic prospects backed by global trade conflicts and geopolitical tension in the Middle-East.

Subsequently, this resulted in the superior performance of Markit iBoxx ALBI Malaysia Total Return Index at 8.93% in 2019, compared to a return of 4.17% in the year 2018.

Fund Performance

For the twelve-month period ending December 2019, the Equity and Dividend Funds lost 1.52% and 1.26% respectively. Both returns outperformed the FBMKLCI Index, which lost 6.02% on an annual basis and equally managed to outperform the benchmark for a five-year period under review by 233bps and 120bps respectively. The FBMKLCI Index posted a negative return last year and the decline was due to weaker corporate earnings, lack of domestic catalyst and continuous foreign outflow from the local market. Meanwhile, Jati Fund gave a positive return of 2.7%, as compared to the benchmark FBMEMAS Shariah Index, which posted a higher return of 3.85%.

The strong rally in the fixed income market resulted in better performing funds, which focused into less risky assets. The Balanced and Income Funds, meanwhile, gave a positive return of 4.92% and 8.80% respectively, compared to their benchmark indices that grew by 1.26% and 8.93% respectively. In the long run, both funds outperformed the benchmark by 112bps and 68bps for a five-year period.

CEO's Statement (cont'd.)

The AsiaPac Fund, investing in the Principal S&P Ethical Asia Pacific Dividend ETF listed in Singapore, recorded a positive return of 5.29% compared to the benchmark return of 4.92%. The fund outperformed the benchmark index for the one and five years' periods by 37bps and 453bps respectively.

Meanwhile, the MCIS Global Yakin fund, a feeder fund that invests in Aberdeen Standard Islamic World Equity Fund (ASIWEF), managed by Aberdeen Standard Islamic Investments (Malaysia) Sdn Bhd, registered a positive return of 18.17%, compared to the benchmark MSCI AC World Islamic Index's return of 19.66%. The fund managed to outperform the benchmark index for a five-year period by 18bps.

Our latest fund, the Titan Fund (investing in MyETF Dow Jones U.S. Titans 50), which focuses on Shariah-compliant equities listed in the U.S market, gave a negative absolute return of -0.16% since its inception on 17 September 2019. The benchmark index, Dow Jones Islamic Market U.S. Titans 50 Index performed strongly by 9.6% in the same period under review.

With the global COVID-19 outbreak taking centre stage, we expect the equity market to remain volatile in the first half of 2020. Sentiments in the financial markets are expected to remain fragile due to the expectations of weaker economic numbers going forward and another rate cut in the year.

Given this, our investment strategy for 2020 will be based on tactical asset allocation and a top down approach. Investment instruments will be selected depending on market and economic conditions prevalent at that point in time. Our Investment team will continue to look for value in securities selection with the aim of achieving long-term objectives of each fund.

We look forward to work together to create better value for your investments in the years to come.

Thank you.

Fund Objectives

Balanced Fund

is a diversified portfolio consisting of equities, fixed income and money market instruments in various ratios with the objective of striving to provide the best returns and at the same time safeguarding against any negative development in the area of investment. It aims to have a balance between capital and income growth and appeals to conservative investors. While the focus will be on both equity and fixed income, the ratios of each at any point of time would be dependent upon prevailing market and economic conditions.

Equity Fund

focuses more on investment in equity to attain medium to long term capital appreciation. Besides equities, this fund would also invest in money market instruments with the actual allocation to be based on prevailing market and economic conditions and technical factors. This is more for aggressive investors.

Income Fund

focuses on the objective of providing income distribution on a regular basis while at the same time preserving capital - basically to cater for risk adverse investors. While the fund would be biased towards fixed income instruments it may also invest in money market instruments. Decisions on asset allocations and ratios will depend on the fund manager's views of the local as well as global macroeconomic conditions.

Jati Fund

invests in Shariah-compliant equities and money market instruments in various ratios depending on market and economic conditions prevalent at that point of time. This fund's objective is to invest in companies that provide good prospects for capital appreciation over the medium to long term. However, the fund is not a Takaful product.

Fund Objectives (cont'd.)

Dividend Fund

objective is to achieve a steady income stream with potential for capital growth over medium to long term by focusing mostly on high dividend yielding stocks listed in the FBMKLCI Index and money market instruments.

AsiaPac Fund

is to provide investors with regional exposure in the Asia Pacific equity markets through investment in the Principal S&P Ethical Asia Pacific Dividend ETF (formerly known as CIMB S&P Ethical Asia Pacific Dividend ETF). The ETF is managed by Principal Asset Management Berhad (formerly known as CIMB Principal Asset Management Berhad) and listed on the Singapore Stock Exchange. The ETF invests in the top 40 high yielding stocks in the Asia Pacific region, excluding India, Taiwan, Japan, New Zealand and the Philippines.

The Fund is to feed into Aberdeen Standard Islamic World Equity Fund (formerly known as Aberdeen Islamic World Equity Fund) which is managed by Aberdeen Standard Islamic Investments (Malaysia) Sdn Bhd (formerly known as Aberdeen Islamic Asset Management Sdn Bhd). The Fund invests in Shariah-approved securities across the globe.

Titan Fund

invests in MyETF Dow Jones U.S. Titans 50 which aims for capital growth over medium to long term period by investing in international portfolio of Shariah-compliant equities, which are listed in the U.S market. The investment results will closely correspond to the performance of the Dow Jones Islamic Market U.S. Titans 50 Index. Titan Fund is a new fund, which was launched on 17th September 2019.

Fund Performance Report

Balanced Fund

For the twelve-month period, Balanced Fund has outperformed its required benchmark by 366bps. The fund generated an annual return of 4.92% as compared to its benchmark return of 1.26% on yearly basis (i.e. an index constructed with 50% weighting to the FBMKLCI and 50% to the Markit iBoxx ALBI Malaysia TR Index).

Local equity market had declined by 6.02% during the year on the back of weaker corporate earnings, lack of domestic catalyst and continuous outflow by foreign investors from the local market. On fixed income space, MGS has performed strongly in overall, with the yields moving downward by average 60bps~91bps across the curve. This was mainly driven by the dovish monetary policy both locally and globally, amid the softening economic outlook backed by US-China trade war and geopolitical tension in the Middle-East.

Going forward, we expect volatility in equity market will continue in 2020. For fixed income space, BNM is expected to stay dovish tone in the year 2020, taking cue from the weaker economic pressure arising from the COVID-19 outbreak.

Dividend Fund

For the twelve-month period under review, Dividend Fund lost 1.25%. The fund however had outperformed the benchmark by 477bps. During this period, the FBMKLCI index has lost 6.02%. The fund also managed to outperform the benchmark on a longer term of 5 years period with excess return of 121bps.

The outperformance in the fund was largely due to less exposure of the underperforming stocks. The FBMKLCI Index posted negative return last year due to weaker corporate earnings, lack of domestic catalyst and continuous outflow by foreign investors.

Moving forward, Dividend Fund will continue to focus on high dividend yielding stocks and financial fundamentally sound companies that will ensure dividend income and long term capital appreciation for the fund.

Jati Fund

Jati Fund has posted a positive return of 2.7% for the year 2019, underperforming the benchmark FBM EMAS Shariah Index by 114bps, which posted a gain of 3.85% for the same period under review. However, the fund managed to outperform the benchmark for three years basis by 32bps.

The positive return of shariah benchmark was supported by strong performance of stocks which are not the members of FBMKLCI Index; namely Gamuda and QL Resources. The absence of such stocks in the fund has resulted to the underperformance of the fund compared to benchmark. Furthermore, the fund was dragged by the negative performance of Petronas related stocks; namely Petronas Chemical, Petronas Gas and Petronas Dagangan which posted double digit annual losses.

Jati Fund invests in Shariah approved securities listed on Bursa Malaysia with a strategy to ensure sustainable long term growth for the Fund. Investment strategy will remain centered on well-managed liquid stocks that exhibit positive growth prospects with strong earnings visibility. Stocks with strong cash flows and proactive capital management will also be considered.

Fund Performance Report (cont'd.)

Income Fund

For the year 2019, the Income Fund has slightly underperformed its required benchmark by 11bps. The fund generated an annual return of 8.82% as compared to its benchmark return of 8.93% for the year 2019. The underperformance of the fund was mainly due to overweight position in the corporate bonds over the government bonds, where government bonds have stronger overall performance in the year.

In 2019, MGS has performed strongly in overall, with the yields moving downward by average 60bps~91bps across the curve. This was mainly driven by the dovish monetary policy both locally and globally, amid the softening economic outlook backed by US-China trade war and geopolitical tension in the Middle-East.

Going forward, BNM is expected to stay dovish tone in the year 2020, taking cue from the weaker economic pressure arising from the COVID-19 outbreak. Meantime, the uncertainties of US-China trade conflict will continue to weigh on the global economy.

Opinion

We have audited the financial information of Balanced Fund, Equity Fund, Income Fund, Jati Fund, Dividend Fund, AsiaPac Fund, Global Yakin Fund and Titan Fund (collectively referred to as "the Funds"), which comprise the statements of assets and liabilities as at 31 December 2019, and the statements of income and expenditure, statements of changes in net asset value of the Funds for the year then ended, and notes to the financial information, including a summary of significant accounting policies, as set out on pages 50 to 111.

In our opinion, the accompanying financial information of the Funds for the year ended 31 December 2019 are prepared, in all material respects, in accordance with the accounting policies as described in Note 3 to the financial information and the Policy Document on Investment-linked Business issued by Bank Negara Malaysia.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial information section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

We draw attention to Note 2 to the financial information of the Funds, which describes the basis of accounting. The financial information of the Funds are prepared to assist the Funds in complying with the Policy Document on Investment-linked Business issued by Bank Negara Malaysia. As a result, the financial information of the Funds may not be suitable for another purpose. Our report is intended solely for the unitholders of the Funds, as a body and should not be distributed to or used by parties other than the unitholders of the Funds. Our opinion is not modified in respect of this matter.

Independent auditors' report to the unitholders of the Investment-Linked Funds of MCIS Insurance Berhad (cont'd.)

Independence and other ethical responsibilities

We are independent of the Funds in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information other than the financial information and auditors' report thereon

The directors of the Manager ("the directors") are responsible for the other information. The other information comprises the information contained in the Annual Report of the Funds, but does not include the financial information of the Funds and our auditors' report thereon.

Our opinion on the financial information of the Funds does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial information of the Funds, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial information of the Funds or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial information

The directors are responsible for the preparation of financial information of the Funds in accordance with the accounting policies as described in Note 3 to the financial information and the Policy Document on Investment-linked Business issued by Bank Negara Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial information of the Funds that are free from material misstatement, whether due to fraud or error.

Independent auditors' report to the unitholders of the Investment-Linked Funds of MCIS Insurance Berhad (cont'd.)

Responsibilities of the directors for the financial information (cont'd.)

In preparing the financial information of the Funds, the directors are responsible for assessing the Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Funds or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial information

Our objectives are to obtain reasonable assurance about whether the financial information of the Funds as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial information.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial information of the Funds, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

Independent auditors' report to the unitholders of the Investment-Linked Funds of MCIS Insurance Berhad (cont'd.)

Auditors' responsibilities for the audit of the financial information (cont'd.)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial information of the Funds or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Funds to cease to continue as a going concern.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other matters

This report is made solely to the unitholders and for no other purpose. We do not assume responsibility to any other person for the content of this report.

3. Summary of significant accounting policies

(a) Investments

i) Financial Assets

On initial recognition, a financial asset is classified as measured at amortised cost or fair value through profit or loss ("FVTPL").

Amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Funds have designated all its deposits with financial institutions and short term receivables, which meet the above condition as Amortised cost.

FVTPL

All financial assets that are not classified as measured at amortised cost, as described above, are measured at FVTPL. Any gains or losses from changes in fair value and interest are recognised in the statement of income and expenditure.

The Funds determine the classification of its financial assets at initial recognition, and the categories include financial assets at FVTPL and at amortised cost.

Notes to the financial information (cont'd.)

3. Summary of significant accounting policies (cont'd.)

The Funds assess on a forward looking basis the ECL associated with financial assets measured at amortised costs. The Funds recognise a loss allowance for ECL at each reporting date. The measurement of ECL reflects:

Notes to the financial information (cont'd.)

3. Summary of significant accounting policies (cont'd.)

(c) Impairment of financial assets

Financial instruments that are not measured at FVTPL (cont'd.)

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Funds measure loss allowances at an amount equal to lifetime ECL, except for financial instruments on which credit risk has not increased significantly since their initial recognition.

12-month ECL represent the portion of lifetime ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

The Funds assess at each reporting date whether a financial asset or group of financial assets is impaired.

(d) Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability.

Financial liabilities are recognised in the statements of assets and liabilities when, and only when, the Funds become a party to the contractual provisions of the financial instrument. Financial liabilities are classified as other financial liabilities at fair value through profit or loss or at amortised cost, as appropriate.

3. Summary of significant accounting policies (cont'd.)

(i) Income tax (cont'd.)

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the reporting date. Deferred tax is recognised as income or an expense and included in the statements of income and expenditure for the period, except when it arises from a transaction which is recognised directly in unitholders' account, in which case the deferred tax is also charged or credited directly in unitholders' account.

(j) Foreign currency transactions

Transactions in foreign currencies are initially recorded in the functional currency rate prevailing at the dates of the transaction. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange ruling at the reporting date. All differences are taken to the statements of income and expenditure. Non-monetary items denominated in foreign currencies that are measured at historical cost are translated using the exchange rates as at the dates of initial transactions.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. All foreign exchange differences are taken to statements of income and expenditure, except for differences relating to items where gains or losses are recognised directly in unitholders' account, in which case, the gain or loss is recognised net of the exchange component in unitholders' account.

Penyata Ketua Pegawai Eksekutif (samb.)

Secara khususnya, tahun 2020 adalah tahun yang amat bermakna buat kami di MCIS Life; pelaksanaan penjenamaan-semula kami telah meningkatkan kehadiran jenama kami di pasaran dan mendorong kami untuk meneruskan usaha mencipta inovasi dan menghasilkan produk dan perkhidmatan kami kepada kumpulan pelanggan yang lebih meluas.

Penjenamaan-semula ini adalah langkah permulaan ke arah lebih banyak inisiatif lain yang akan kami perkenalkan kepada pasaran dan paling penting, ia memperkuatkukan lagi teras utama matlamat perniagaan kami untuk membantu anda mencapai jaminan kewangan, disokong oleh pelaburan yang menjana pulangan yang mampan dan konsisten.

Di dalam laporan Berkaitan-Pelaburan ini, kami kongsikan beberapa perkembangan ekonomi utama yang secara lazimnya akan mempengaruhi prestasi dana-dana kami, bagi tempoh kewangan berakhir 31 Disember 2019.

Latar Belakang Ekonomi

Aktiviti ekonomi global kekal lemah dan berkembang pada kadar sederhana semasa suku terakhir 2019. Dana Kewangan Antarabangsa (IMF) menganggarkan pertumbuhan KDNK global yang lebih perlahan pada kadar 2.9% bagi 2019 berbanding pertumbuhan 3.0% pada 2018, mencerminkan ketidakpastian ekonomi global merangkumi dasar dagangan, tekanan geopolitik dan kejutan negatif di beberapa ekonomi baru muncul.

Walaupun berdepan pelbagai masalah, sentimen pasaran telah dimangkin oleh petanda sementara bahawa pertumbuhan global mungkin telah berada di tahap terendah menjelang akhir tahun 2019, apabila aktiviti pengeluaran dan dagangan global kembali meningkat disertai pelonggaran ekonomi yang berlaku pada separuh kedua tahun di beberapa ekonomi utama. Terdapat beberapa berita positif yang membawa kepada pengunduran daripada persekitaran berisiko, seperti rundingan dagangan AS-China dan Brexit tanpa-perbincangan.

Di AS, suku keempat 2019 menyaksikan pertumbuhan yang lebih baik kepada 2.3%, berbanding 2.1% pada suku ketiga, disokong oleh perbelanjaan awam yang lebih tinggi dan import yang lebih rendah. Pertumbuhan di kebanyakan ekonomi serantau juga meningkat sedikit, dengan petanda awal mengenai pemulihan dalam eksport dan kemampunan permintaan domestik. Sementara itu, pertumbuhan di China kekal pada 6.0% pada suku keempat, disokong terutamanya oleh pelaburan yang kukuh dengan peningkatan dalam aktiviti pengeluaran. Eksport China melonjak kepada positif 1.9% berbanding penguncutan -0.3% pada suku terdahulu, disokong oleh permintaan lebih

Penyata Ketua Pegawai Eksekutif (samb.)

tinggi dari ekonomi ASEAN dan Kesatuan Eropah (EU). Di Singapura, pertumbuhan mencatatkan kenaikan tipis, hasil eksport yang lebih baik, terutamanya ke rantau sekitar dan AS.

Harga minyak mentah Brent kekal stabil pada USD62 setong pada suku keempat 2019, apabila lanjutan pemotongan pengeluaran secara sukarela oleh Pertubuhan Negara-negara Pengekspor Petroleum (OPEC) dan peningkatan tekanan geopolitik di Timur Tengah telah mengimbangi suasana permintaan minyak global yang agak sederhana.

Di Malaysia pula, ekonomi berkembang pada kadar 3.6% pada suku keempat 2019, lebih rendah berbanding 4.4% yang dicatatkan pada suku ketiga manakala untuk dasar tahunan, KDNK 2019 berkembang sebanyak 4.3% berbanding 4.7% yang dicatatkan pada tahun 2018. Pertumbuhan ini telah disokong oleh permintaan domestik yang berkembang 4.9% dan perbelanjaan sektor swasta yang meningkat sebanyak 7.4%. Bagaimanapun, penurunan dalam eksport kasar, yang menguncup sebanyak 3.3%, ditekan oleh pengurangan dalam kedua-dua eksport komoditi dan pengeluaran, telah menarik turun pertumbuhan keseluruhan. Sementara itu, import kasar mengalami penurunan pada kadar lebih perlahan 4.0%, disebabkan oleh pemulihan positif dalam import pertengahan dan penguncupan lebih kecil dalam import modal.

Kadar inflasi, sebagaimana diukur oleh perubahan peratusan tahunan dalam Indeks Harga Pengguna (CPI), mengurang kepada 1.0% pada suku keempat 2019, berbanding 1.3% pada suku ketiga tahun 2019. Keputusan inflasi yang lebih rendah ini mencerminkan pengurangan impak pelaksanaan SST. Inflasi bahan api terus memberi sumbangan negatif kepada inflasi di mana harga siling bahan api runcit tempatan masih dikekalkan. Teras inflasi adalah stabil pada kadar 1.4%, mencerminkan ketiadaan tekanan permintaan yang kukuh di dalam ekonomi, dengan perkembangan sederhana dalam sektor gaji swasta. Untuk dasar tahunan, kadar inflasi bagi tahun ini berada pada 0.7% berbanding 1.0% pada tahun 2018.

Melangkah ke suku pertama 2020, pandemik COVID-19 tidak menjadi perlahan dan menyebabkan sekatan perjalanan domestik dan antarabangsa dilaksanakan serta lanjutan cuti Tahun Baru Cina bagi kebanyakan perniagaan di sektor pengeluaran telah menekan aktiviti sektor swasta. Sekatan perjalanan menyeluruh di beberapa lokasi global, kawalan pergerakan contohnya seperti di Malaysia, telah melumpuhkan beberapa sektor ekonomi di negara yang terjejas. Kerajaan di negara-negara yang terjejas ini telah melaksanakan beberapa langkah penting seperti pemotongan kadar faedah dan bantuan kewangan untuk membantu rakyat mereka daripada kesan pandemik ini. Bagaimanapun, ia mungkin tidak mencukupi dan bukan sesuatu yang mengejutkan sekiranya

Penyata Ketua Pegawai Eksekutif (samb.)

ada negara yang mengalami kemelesetan pada suku tertentu 2020. Aktiviti ekonomi mungkin akan kembali bergerak tetapi mengalami sedikit kesukaran untuk kembali normal pada separuh kedua tahun. Memandangkan pertumbuhan ekonomi global secara keseluruhannya dijangka agak terhad pada tahun ini, ia akan menjadi satu tahun yang sukar buat Malaysia dan seluruh dunia.

Prestasi Pasaran Kewangan

Pasaran ekuiti global telah merekodkan tahun 2019 sebagai tahun terbaik mereka dalam tempoh sedekad. Indeks MSCI World, yang menjak saham-saham di seluruh negara maju, melonjak hampir 24% atas dasar tahunan. Prestasi paling kukuh dicatatkan sejak 2009 ini telah disokong oleh peningkatan dalam gergasi teknologi AS dan pemulihian cemerlang di Eurozone dan beberapa pasaran Asia.

Indeks S&P 500 yang merangkumi syarikat terbaik AS juga meningkat 28% pada tahun 2019, mencecah beberapa siri tertinggi apabila Presiden Donald Trump mengumumkan persetujuan dagangan fasa pertama AS-China. Dow Jones Industrial Average juga mencatat pulangan 23.76% pada 2019. Tiga pemotongan kadar faedah pada tahun ini juga telah menyemarakkan sentimen mengenai prospek pertumbuhan AS.

Indeks FTSE 100 UK meningkat 12% atas dasar tahunan bagi tahun 2019, prestasi terbaik yang direkodkan dalam tempoh tiga tahun, hasil aliran masuk dana menjelang akhir tahun. Sentimen positif timbul selepas kemenangan besar semasa pilihanraya umum UK yang berlangsung pada bulan Disember, yang memangkin keyakinan bahawa parti pemerintah akan melengkapkan Brexit, sekaligus menamatkan ketidakpastian yang menjauhkan pelabur.

Saham Eurozone juga merekodkan prestasi yang baik, di mana Indeks DAX Jerman dan Indeks CAC Perancis masing-masing meningkat 25%. Saham indeks CSI 300 China pula melonjak 36% pada tahun 2019 di mana Beijing memotong kos pinjaman dan menaikkan perbelanjaan bagi projek prasarana dan pembinaan.

Dalam negara pula, prestasi menyeluruh pasaran ekuiti Malaysia masih negatif dengan Indeks FBMKLCI ditutup -6.02% pada 1,588.7 mata. Perolehan korporat pada suku ketiga 2019 masih lemah dan dicatatkan di bawah jangkaan pasaran, menyarankan bahawa suasana operasi masih kekal mencabar. Dana asing telah membawa keluar ekuiti tempat bernilai RM11 bilion, rendah sedikit berbanding jumlah aliran keluar dana asing bernilai RM11.69 bilion yang direkodkan pada 2018.

Penyata Ketua Pegawai Eksekutif (samb.)

Bagi pasaran bon tempatan pula, Bank Negara Malaysia (BNM) telah mengekalkan kedudukan moniteri defensif sepanjang tahun 2019, dengan pemotongan Kadar Dasar Semalam (OPR) sebanyak 25-bps kepada 3.00% pada bulan Mei 2019 dan pemotongan Keperluan Rizab Berkanun (SRR) sebanyak 50-bps kepada 3.00% pada bulan November 2019. Dasar moniteri tempatan secara amnya adalah sejajar dengan trend pelonggaran moniteri global di mana AS telah memotong kadar faedahnya sebanyak tiga kali pada tahun ini apabila berlakunya perang dagangan AS-China dan tekanan geopolitik di Timur Tengah. Melangkah ke hadapan, BNM dijangka akan mengekalkan kedudukan defensif pada 2020, memandangkan terdapat prospek ekonomi yang lebih rendah akibat penularan pandemik wabak COVID-19 di seluruh dunia.

Prestasi Sekuriti Kerajaan Malaysia (MGS) menyaksikan pengukuhan sepanjang tahun 2019 di mana MGS 10-tahun bergerak turun sekitar ~77bps. Pengukuhan bon pula dimangkin oleh dasar moniteri defensif serta prospek ekonomi yang suram, disokong oleh konflik dagangan global dan tekanan geopolitik di Timur Tengah.

Seterusnya, ia menyebabkan Indeks Markit iBoxx ALBI Malaysia Total Return mencatatkan prestasi cemerlang pada kadar 8.93% bagi 2019, berbanding pulangan 4.17% pada 2018.

Prestasi Dana

Untuk tempoh dua belas bulan berakhir Disember 2019, Dana Equity dan Dana Dividend masing-masing mengalami pengurangan 1.52% dan 1.26%. Kedua-dua pulangan ini mengatasi prestasi Indeks FBMKLCI, yang mengalami kejatuhan 6.02% atas dasar tahunan dan dana-dana juga berjaya mengatasi penanda aras bagi tempoh lima tahun di bawah ulasan, masing-masing sebanyak 233bps dan 120bps. Indeks FBMKLCI pula mencatatkan pulangan negatif pada tahun lepas dan kejatuhan ini berpunca daripada perolehan korporat yang lebih lemah, kekurangan pemangkin domestik dan aliran keluar pelabur asing yang berterusan dari pasaran tempatan. Sementara itu, Dana Jati mencatatkan pulangan positif 2.7%, berbanding penanda aras Indeks FB MEMAS Shariah yang mencatatkan pulangan lebih tinggi pada kadar 3.85%.

Kenaikan kukuh di pasaran pendapatan tetap telah menyebabkan dana-dana menghasilkan prestasi yang lebih baik, terutamanya yang memberi tumpuan kepada aset-aset kurang berisiko. Dana Balanced dan Dana Income masing-masing mencatatkan rekod positif 4.92% dan 8.80%, berbanding indeks penanda aras mereka yang berkembang sebanyak 1.26% dan 8.93%. Untuk jangka panjang, kedua-dua dana berjaya mengatasi penanda aras masing-masing sebanyak 112bps dan 68bps bagi tempoh lima tahun.

Penyata Ketua Pegawai Eksekutif (samb.)

Dana AsiaPac, yang melabur di dalam Principal S&P Ethical Asia Pacific Dividend ETF yang disenaraikan di Singapura, merekodkan pulangan positif 5.29% berbanding pulangan penanda aras pada 4.92%. Dana berjaya mengatasi prestasi penanda aras bagi tempoh satu dan lima tahun, masing-masing sebanyak 37bps dan 453bps.

Sementara itu, Dana MCIS Global Yakin, sebuah dana perantara yang melabur dalam Aberdeen Standard Islamic World Equity Fund (ASIWEF) yang diuruskan oleh Aberdeen Standard Islamic Investments (Malaysia) Sdn Bhd turut mencatatkan pulangan positif 18.17%, berbanding pulangan penanda aras Indeks MSCI AC World Islamic pada 19.66%. Dana berjaya mengatasi prestasi indeks penanda aras sebanyak 18bps bagi tempoh lima tahun.

Dana terbaru kami, Dana Titan (melabur dalam MyETF Dow Jones U.S. Titans 50) yang memberi tumpuan kepada ekuiti patuh Shariah yang disenaraikan di pasaran AS mencatatkan pulangan penuh negatif -0.16% sejak ia ditubuhkan pada 17 September 2019. Indeks penanda aras, Indeks Dow Jones Islamic Market U.S. Titans 50 merekodkan prestasi kukuh 9.6% bagi tempoh sama di bawah ulasan.

Dengan penularan global virus COVID-19 menjadi topik utama, kami menjangka pasaran ekuiti akan kekal tidak menentu pada suku pertama 2020. Sentimen di pasaran kewangan diramalkan akan kekal rapuh dengan jangkaan angka ekonomi yang lebih lemah di masa hadapan dan satu lagi pemotongan kadar pada tahun ini.

Berdasarkan keadaan ini, strategi pelaburan kami bagi tahun 2020 akan menggunakan peruntukan aset taktikal dan pendekatan atas-bawah yang lebih terperinci. Instrumen pelaburan akan dipilih bergantung pada keadaan pasaran dan ekonomi yang lazim pada masa tersebut. Pasukan Pelaburan kami akan terus mencari nilai dalam pemilihan sekuriti demi mencapai matlamat jangka panjang setiap dana.

Kami berharap dapat terus bekerjasama bagi mencipta nilai yang lebih baik untuk pelaburan anda di masa hadapan.

Terima kasih.

Laporan Prestasi Dana

Dana Balanced

Untuk tempoh dua belas bulan, Dana Balanced mengatasi prestasi yang dicatatkan oleh penanda arasnya sebanyak 366bps apabila dana menghasilkan pulangan tahunan sebanyak 4.92% berbanding pulangan 1.26% yang direkodkan oleh penanda aras berasaskan tahun-ke-tahun (iaitu indeks yang ditakrif dengan 50% wajaran kepada FBMKLCI dan 50% kepada Indeks Markit iBoxx ALBI Malaysia TRI).

Pasaran ekuiti tempatan menurun 6.02% bagi tahun 2019 disebabkan oleh perolehan korporat yang lemah, kekurangan pemangkin domestik dan aliran keluar pelabur asing yang berterusan dari pasaran tempatan. Bagi segmen pendapatan tetap pula, MGS menunjukkan prestasi yang kukuh secara keseluruhannya, dengan kadar hasil menurun pada purata 60bps~91bps. Ia telah dipacu oleh dasar moniteri tempatan dan global yang defensif, dengan kelonggaran unjuran ekonomi yang disokong oleh perang dagangan AS-China serta tekanan geopolitik di Timur Tengah.

Melangkah ke hadapan, kami menjangka turun naik dalam pasaran ekuiti akan berterusan pada tahun ini. Untuk segmen pendapatan tetap, BNM dijangka mengekalkan kedudukan defensif pada 2020, mengambil petunjuk daripada tekanan ekonomi yang lebih lemah akibat penyebaran virus COVID-19.

Dana Dividend

Untuk tempoh dua belas bulan di bawah ulasan, Dana Dividend kerugian 1.25% bagi tempoh berakhir Disember 2019. Walau bagaimanapun, dana mengatasi pulangan penanda aras sebanyak 477bps di mana Indeks FBMKLCI kehilangan 6.02%. Dana juga berjaya mengatasi penanda aras melebihi 121bps untuk tempoh jangka panjang 5 tahun.

Prestasi dana yang lebih tinggi ini sebahagian besarnya disebabkan oleh kekurangan pendedahan bagi saham kurang berprestasi. Indeks FBMKLCI mencatatkan pulangan negatif pada tahun lepas disebabkan oleh perolehan korporat yang lemah, kekurangan pemangkin domestik dan aliran keluar pelabur asing yang berterusan dari pasaran tempatan.

Melangkah ke hadapan, Dana Dividend akan terus memberi tumpuan kepada saham-saham dengan pulangan dividen tinggi dan syarikat-syarikat dengan asas kewangan yang kukuh untuk memastikan pendapatan dividen dan peningkatan modal jangka panjang untuk dana.

Laporan Prestasi Dana (samb.)

Dana Equity

Dana Equity kehilangan 1.51% bagi tahun berakhir 31 Disember 2019. Bagaimanapun, pulangan ini mengatasi pulangan penanda aras atas dasar tahunan sebanyak 451bps, di mana Indeks FBMKLCI jatuh 6.02%. Untuk tempoh jangka panjang, dana mengatasi penanda aras bagi tempoh tiga dan lima tahun di bawah ulasan, masing-masing pada 209bps dan 233bps.

Prestasi dana yang lebih tinggi ini sebahagian besarnya disebabkan oleh kekurangan pendedahan bagi saham kurang berprestasi. Indeks FBMKLCI mencatatkan pulangan negatif pada tahun lepas disebabkan oleh perolehan korporat yang lemah, kekurangan pemangkin domestik dan aliran keluar pelabur asing yang berterusan dari pasaran tempatan.

Melangkah ke hadapan, strategi pelaburan akan kekal memberi tumpuan kepada saham-saham cair yang diuruskan dengan baik serta menunjukkan prospek pertumbuhan positif dengan potensi perolehan yang kukuh. Saham dengan aliran tunai yang kukuh dan pengurusan modal yang proaktif juga akan dipertimbangkan.

Dana Jati

Dana Jati mencatatkan pulangan positif 2.7% bagi tahun berakhir 31 Disember 2019, tidak mengatasi penanda aras Indeks FBMEMAS Shariah sebanyak 114bps, yang mencatatkan keuntungan 3.85% bagi tempoh yang sama di bawah ulasan. Bagaimanapun, dana ini berjaya mengatasi penanda aras sebanyak 32bps bagi tempoh tiga tahun.

Pulangan positif penanda aras Shariah telah disokong oleh prestasi kukuh saham-saham yang bukan ahli Indeks FBMKLCI; seperti Gamuda dan QL Resources. Ketiadaan saham-saham sebegitu telah menyebabkan dana mencatatkan prestasi rendah berbanding penanda aras. Tambahan pula, dana telah ditarik turun oleh prestasi negatif saham berkaitan Petronas; seperti Petronas Chemical, Petronas Gas dan Petronas Dagangan yang merekodkan kerugian tahunan dua angka.

Dana Jati melabur dalam sekuriti patuh Shariah yang disenaraikan di Bursa Malaysia dengan strategi untuk memastikan pertumbuhan jangka panjang yang mampan untuk dana. Strategi pelaburan akan kekal memberi tumpuan kepada saham-saham cair yang diuruskan dengan baik serta menunjukkan prospek pertumbuhan positif dengan potensi perolehan yang kukuh. Saham dengan aliran tunai yang kukuh dan pengurusan modal yang proaktif juga akan dipertimbangkan.

Dana Income

Untuk tempoh dua belas bulan berakhir 31 Disember 2019, Dana Income tidak mengatasi prestasi penanda arasnya sebanyak 11bps apabila Dana menghasilkan pulangan tahunan 8.82% berbanding pulangan penanda aras pada 8.93% berdasarkan tahun-ke-tahun. Prestasi dana yang lebih rendah adalah disebabkan oleh kedudukan wajaran tinggi dalam bon korporat, namun sebaliknya bon kerajaan yang telah mencatatkan prestasi lebih kukuh secara keseluruhan bagi tahun ini.

Pada 2019, MGS menyaksikan pengukuhan sepanjang tahun 2019, dengan pulangan bergerak turun sekitar 60bps~91bps. Ia dimungkin oleh dasar moniteri defensif, dengan prospek ekonomi yang suram akibat konflik dagangan AS-China dan tekanan geopolitik di Timur Tengah.

Melangkah ke hadapan, BNM dijangka mengekalkan kedudukan defensif pada 2020, mengambil petunjuk daripada tekanan ekonomi yang lebih lemah akibat penyebaran virus COVID-19. Sementara itu, ketidakpastian konflik dagangan AS-China akan terus memberi kesan ke atas ekonomi global.

Berkaitan dengan pengauditan maklumat kewangan Dana-dana, tanggungjawab kami adalah untuk membaca maklumat lain, dan dalam berbuat demikian, mempertimbangkan sama ada maklumat lain tersebut tidak konsisten secara material dengan maklumat kewangan Dana-dana atau pengetahuan yang diperoleh dalam audit atau sebaliknya kelihatan seperti telah disalahnyatakan dengan material.

Sekiranya berdasarkan kerja yang telah kami lakukan, kami membuat kesimpulan bahawa ada salah nyata material dari maklumat lain, kami dikehendaki melaporkan fakta tersebut. Kami tidak mempunyai apa-apa untuk dilaporkan dalam hal ini.

Tanggungjawab para pengarah terhadap maklumat kewangan

Para pengarah bertanggungjawab terhadap penyediaan maklumat kewangan Dana-dana selaras dengan dasar-dasar perakaunan seperti yang dinyatakan dalam Nota 3 kepada maklumat kewangan dan Dokumen Polisi mengenai Perniagaan Berkaitan Pelaburan yang dikeluarkan oleh Bank Negara Malaysia. Dalam menyediakan maklumat kewangan Dana-dana, para pengarah bertanggungjawab untuk menilai keupayaan Dana-dana sebagai satu usaha berterusan, mendedahkan, jika berkenaan, perkara berkaitan usaha berterusan dan menggunakan asas perakaunan untuk usaha berterusan melainkan jika para pengarah berhasrat untuk mencairkan Dana atau memberhentikan operasi, ataupun tidak mempunyai alternatif yang realistik selain berbuat demikian.

Tanggungjawab juruaudit terhadap pengauditan maklumat kewangan

Objektif kami adalah untuk memperolehi jaminan yang munasabah mengenai sama ada maklumat kewangan Dana-dana secara keseluruhan bebas daripada salah nyata material, sama ada disebabkan oleh penipuan atau kesilapan, dan untuk menerbitkan laporan juruaudit yang merangkumi pendapat kami. Jaminan yang munasabah adalah tahap jaminan yang tinggi, tetapi bukan merupakan jaminan bahawa audit yang dijalankan mengikut piawaian pengauditan yang diluluskan di Malaysia dan Piawaian Pengauditan Antarabangsa akan sentiasa mengesan salah nyata material ketika kewujudannya. Salah nyata boleh timbul daripada penipuan atau kesilapan dan dianggap material jika, secara individu atau dalam agregat, ia boleh dijangkakan dengan munasabah untuk mempengaruhi keputusan ekonomi yang dibuat oleh pengguna berdasarkan maklumat kewangan ini.

Sebagai sebahagian daripada pengauditan mengikut piawaian pengauditan yang diluluskan di Malaysia dan Piawaian Pengauditan Antarabangsa, kami mengamalkan pengadilan profesional dan mengekalkan keraguan profesional sepanjang pengauditan. Kami juga:

- Mengenal pasti dan menaksir risiko salah nyata material dalam maklumat kewangan Dana-dana, sama ada disebabkan oleh penipuan atau kesilapan, merangka dan melaksanakan prosedur audit terhadap risiko berkenaan, dan mendapatkan bukti audit yang mencukupi dan bersesuaian untuk memberikan asas kepada pendapat kami. Jika kami membuat kesimpulan bahawa ketidakpastian material wujud, kami dikehendaki untuk menyatakan pendedahan yang berkaitan dalam laporan juruaudit maklumat kewangan Dana-dana atau, jika pendedahan tersebut tidak mencukupi, pendapat kami akan diubah. Kesimpulan kami adalah berdasarkan kepada bukti audit yang diperoleh sehingga tarikh laporan juruaudit.
