Chief Executive Officer
MCIS Insurance Berhad

Dear Valued Policyholders,

We appreciate your support for our range of investment-linked funds (I-Linked Funds) based life insurance solutions. 2016 witnessed growth in the number of overall customers choosing our portfolio of I-Linked funds which reflects confidence in our ability to manage your chosen funds. This annual fund performance report allows you to evaluate how each fund has performed over the course of 2016 against global and local economic conditions which were challenging not only for life insurance players, but for all in the financial services sector.

Economic Backdrop

For the year 2016, the International Monetary Fund (IMF) expected the global economy to grow steadily at 3.1% compared with 2015's 3.2%. The global economy managed to navigate its way through troubled waters and performed at a decent rate. This stable average growth rate, however, masks divergent developments in different country groups. Among advanced economies, activity rebounded strongly in the United States after a weak first half in 2016 and the economy is approaching full employment. Output remains below potential in a number of other advanced economies notably in the eurozone area.

2016 also witnessed some major events which resulted in high geopolitical risks resulting from "Brexit", the election of Donald Trump as the US President and the Organisation of Petroleum Exporting Countries (OPEC) members and non-members' commitment to control oil price, among others.

In June 2016, British citizens unexpectedly voted in favour of exiting the European Union (EU) which popularly became known as Brexit, causing a plunge of the British pound and also the FTSE100 benchmark index, recording 11% and 9% decline the subsequent market day. British pound closed the year at GBP 0.8101/USD (-19% y-o-y). Preliminary third quarter growth figures were somewhat stronger than previously forecasted in some economies such as Spain and the United Kingdom, where domestic demand held up better than expected in the aftermath of Brexit.

Amid the hurdles in eurozone, the euro economy managed to post 14 consecutive quarters of growth in the fourth quarter of 2016 at 0.5% q-o-q, compared with 0.3% q-o-q in the same

quarter in the preceding year. The unemployment rate has also returned to single digit at 9.6% in December 2016 from 10.5% in December 2015. The economic sentiment has reached its highest level in six years, with inflation also on the rise. The consumer price index jumped by 1.8% y-o-y from 0.2% y-o-y in December 2015. The increase was mainly due to energy prices while core inflation remained at 0.9%.

In November 2016, Donald Trump unexpectedly won the US Presidential Election. Global markets plunged into a period of high volatility, amidst uncertainties over how Trump's presidency will affect current US economic policies and world economic climate. On 14 December 2016, the US Federal Reserve raised interest rates from 0.50% to 0.75%. This represents the second increase in a decade. The announcement however, boosted the sentiment of global outlook.

The US real gross domestic product (GDP) increased at an annual rate of 1.9% in the fourth quarter of 2016 (0.7% in fourth quarter of 2015), according to the "advance" estimate released by the Bureau of Economic Analysis. In the third quarter, real GDP increased by 3.5%. The increase in real GDP in the fourth quarter reflected positive contributions from personal consumption expenditures; private inventory investment, residential fixed investment, non-residential fixed investment, and state and local government spending that were partly offset by negative contributions from exports and federal government spending. Imports, which are a subtraction in the calculation of GDP, increased.

China's economic growth picked up in the final quarter of 2016 with a growth of 6.8% y-o-y, supported by government spending and a property boom. The world's second-largest economy expanded from the previous quarter's 6.7%. Full-year growth was 6.7%, down from 2015's 6.9% and the weakest in 26 years as it heads into a potential trade battle with the US President-elect Donald Trump. Trump has promised to increase duties on Chinese goods, putting pressure on industries that employ millions of workers.

Earlier in the year, crude oil price touched a 12 year low to below USD30 per barrel. Oil firms continued laying off workers and currency markets from commodity-producing countries were in turmoil, as crude inventories rose well above analysts' expectations. However in November 2016, OPEC agreed to cut oil production in order to reduce the supply glut of global oil inventories for the first time in eight years. The members agreed to reduce production by 1.2 million barrels per day. Benchmark oil prices rose by 10% following a deal struck and currencies of large exporters boosted alongside share prices of energy companies. Brent crude oil prices soared to a 16-month high price above USD55 on 5 December 2016. As at the year end, the oil price settled at USD56.82 per barrel (+52% y-o-y).

Back to Malaysia, the full year real GDP growth slowed to 4.2% y-o-y for 2016 as compared to 5.0% recorded in 2015. This was mainly due to continuous slowdown in domestic demand. On a quarterly basis, real GDP picked up above expectation in the fourth quarter with a growth of 4.5% y-o-y, from 4.3% in the third quarter and 4% in the second quarter. The pick-up was driven mainly by a rebound in export growth and a healthy expansion in gross fixed capital formation as well as a build-up of inventory, which mitigated a slowdown in private and government consumption.

Exports in USD terms grew 6.7% annually in December, which followed November's robust 8.7% expansion. Similarly, y-o-y exports to Malaysia's top three trading partners—China, Singapore and the European Union—were strong in December and recorded double-digit increase. According to the National Statistical Institute, December's expansion was broad-based as it reflected increase in exports of electronic products, palm oil and palm-based products and crude oil. Liquefied natural gas (LNG) was the only major category to record a decline but it could not prevent the month's overall increase. Imports also increased in December at 7.6% y-o-y but at a slower pace than November's expansion at 12.1% y-o-y.

Meanwhile, inflation rose by 1.8% y-o-y in December 2016, the same as in November but slightly below market expectations of a 1.9%. The inflation rate for December 2016 was at the highest level since May, mainly due to rising prices of food and non-alcoholic beverages while inflation for housing and utilities were steady and cost of transport fell less than in a month earlier.

Financial Market Performance

It was a positive year for global markets in 2016, unlike a bumpy ride for our local market, having to deal with several headwinds. For the twelve months period ended 31 December 2016, the US Dow Jones and S&P 500 Index have recorded strong positive growth to close at 19,762.6 points and 2,238.8 points, increasing by 13% and 9.5% respectively. Meanwhile, in the eurozone, the performance was also encouraging. United Kingdom's FTSE 100 Index increased by 14.4% to end the year at 7,142.8 points while the German DAX and France's CAC40 Indices rose by 6.9% and 4.9% to 11,481.06 points and 4,862.31 points respectively.

In Asia, China recorded as the worst performing market in the world for 2016. Starting with a botched attempt to reduce volatility that instead triggered a spectacular meltdown; Chinese bourses have spent the year struggling against feckless policymakers, massive capital flight and a languishing currency. The benchmark Shanghai Composite Index (SCI) struggled towards the finish line, down 12.5% y-o-y, compared to falls of 0.6% by the Hang Seng Index in Hong Kong and 2.2% for Japan's Nikkei 300. Meanwhile for the South East Asia region, Thailand SET Index was the best performing market to increase 19.8% y-o-y, which was followed by Indonesia's JCI Index that rose 15.3% y-o-y.

For Malaysia, FBMKLCI Index declined for the third consecutive year in its negative territories to 1,641.73 points, down by 3% y-o-y (-3.9% in 2015 and -5.6% in 2014). The increase in interest rate in the US in December resulted in a massive flight to safety as foreign investors pulled out their money at record levels, putting pressure on the ringgit resulting it to depreciate above MYR4.45/USD level. Ringgit depreciated to MYR4.48/USD level by year end. Foreign investors have been net sellers of RM1 billion in December 2016.

In view of the local bond market, it was given a nudge up at the start of the year when Bank Negara Malaysia (BNM) cut Statutory Reserve Requirement (SRR) for banking institutions from 4.0% to 3.5% on 19 January 2016 even though BNM had maintained the Overnight Policy Rate

(OPR) at 3.25%. In April, we also saw the appointment of Datuk Muhammad Ibrahim as the new Governor replacing Tan Sri Dato' Sri Dr. Zeti Akhtar Aziz who retired. The appointment soothed market anxiousness and concerns as Datuk Muhammad was the most preferred candidate for the position as it would demonstrate the continued works pursued by BNM.

BNM surprisingly lowered the OPR by 25 bps to 3.00% on 13 July 2016, causing a knee-jerk rally in ringgit bonds. Gains, however, retraced lower after the new central bank governor mentioned of no plans for further rate cuts in 2016, in addition to having explained that the July rate cut was more of a pre-emptive move.

The Malaysian Government Securities (MGS) yield closed weaker during 2016 with higher yields across the yield curve. Yields went up between 4 to 16 bps during the year. Ringgit was very volatile during the year with USD/MYR starting out at MYR4.29/USD in early 2016 and continued to strengthen during the first quarter before it turned weaker again for the rest of the year. As at the end of 2016, ringgit settled at MYR4.48/USD (dropped by 4.22% y-o-y).

Fund Performance

For the twelve months period ended 31 December 2016, the Equity Fund eased by 1.5%, outperforming the FBMKLCI Index. The benchmark index posted a negative return of 3.0%. Dividend Fund also recorded a negative return of 3.41%, underperformed the benchmark by 41 bps. Both funds however, managed to outperform the benchmark for the three and five years period under review. In tandem with negative market performance, Jati Fund posted a negative return of 5.86%. The fund however had outperformed the benchmark FBM Shariah Index which posted a loss of 6.14%.

The FBMKLCI Index posted a third straight annual loss as local benchmark index lost its core attractiveness. A crackdown on currency speculators has also exacerbated outflows and saw the ringgit weaken even as oil rebounded, an unusual phenomenon for East Asia's only net exporter of the commodity. Unfavourable political developments had also affected the sentiment on Bursa Malaysia.

Other funds which focus into less-risk assets namely Balanced and Income funds managed to outperform their benchmark indices for the same period under review. Balanced fund grew by 2.07% while its benchmark index grew by 0.06%. The Income Fund has impressively outperformed its required benchmark by 373 bps (3.73%) when the fund returned 6.82% compared to its benchmark which recorded a gain of 3.09%. The fund continued to outperform as a result of rigorous and active portfolio management in seeking excess return, even in a challenging bond market of 2016.

AsiaPac Fund, which invests in CIMB S&P Ethical Asia Pacific Dividend ETF listed in Singapore, gave a positive return of 5.86% compared to the benchmark of 1.21%. The fund also outperformed the index for a three year period to post a return of 6.13% versus the benchmark return of -7.18%. The outperformance was mainly due to higher translation gain caused by the weakening ringgit against US dollar.

Meanwhile, Global Yakin Fund, a feeder fund which invests in Aberdeen Islamic World Equity Fund (AIWEF), managed by Aberdeen Islamic Asset Management Sdn Bhd, grew 7.7%, outperforming the benchmark, MSCI AC World Islamic Index of 5.67%. It was a positive year for global markets in 2016, where most of the indices posted higher returns compared with the year earlier. The better sentiment was backed by stronger than expected economic numbers in the US and eurozone, stronger dollar and stable oil prices.

In the local market, after three consecutive years of negative growth, there are signs that the market will recover in the year 2017. This will be positive for local funds namely Dividend, Equity and Jati, which focuses on securities listed on Bursa Malaysia.

Moving forward, our investment strategy will remain centered on well-managed liquid stocks that exhibit good growth prospects with strong earnings visibility. Stocks with strong cash flows and proactive capital management will also be considered.

Our Investment Team continues to look for value in securities selection to commensurate with the longer term objectives of these funds.

On behalf of the company, I take this opportunity to thank you once again for your support as our valued I-Linked policyholders.

We look forward to continue creating value for your investments with us into the future.

Kobus Vlok

Chief Executive Officer
MCIS Insurance Berhad

MCIS Balanced Fund is a diversified portfolio consisting of equities, fixed income and money market instruments in various ratios with the objective of striving to provide the best returns and at the same time safeguarding against any negative development in the area of investment. It aims to have a balance between capital and income growth and appeals to conservative investors. While the focus will be on both equity and fixed income, the ratios of each at any point of time would be dependent upon prevailing market and economic conditions.

MCIS Equity Fund focuses more on investment in equity to attain medium to long term capital appreciation. Besides equities, this fund would also invest in money market instruments with the actual allocation to be based on prevailing market and economic conditions and technical factors. This is more for aggressive investors.

MCIS Income Fund focuses on the objective of providing income distribution on a regular basis while at the same time preserving capital - basically to cater for risk averse investors. While the fund would be biased towards fixed income instruments it may also invest in money market instruments. Decisions on asset allocations and ratios will depend on the fund manager's views of the local as well as global macroeconomic conditions.

MCIS Jati Fund focuses on the needs of Muslim investors and is invested in accordance with Shariah principles in Shariah-sanctioned equities, money market instruments and fixed income instruments in various ratios depending on market and economic conditions prevalent at that point of time. However, this fund is more biased towards investment in equities. This fund's objective is to invest in companies that provide good prospects for capital appreciation over the medium to long term. Even though Jati Fund is invested in Shariah-approved securities, the fund is not a Takaful product.

MCIS Dividend Fund is to achieve a steady income stream with potential for capital growth over medium to long term by focusing mostly on high dividend-yielding stocks and money market instruments.

MCIS AsiaPac Fund is to provide investors with regional exposure in the Asia Pacific equity markets through investment in the CIMB S&P Ethical Asia Pacific Dividend ETF. The ETF is managed by CIMB Principal Asset Management Berhad and listed on the Singapore Stock Exchange. The ETF invests in the top 40 high yielding stocks in the Asia Pacific region, excluding India, Taiwan, Japan, New Zealand and the Philippines.

MCIS Global Yakin Fund aims for capital appreciation in the long term by investing in an international portfolio of Shariah-compliant equities and equity-related securities of companies with good growth potential. The Fund is to feed into Aberdeen Islamic World Equity Fund which is managed by Aberdeen Islamic Asset Management Sdn Bhd. The fund invests in Shariah-approved securities across the globe.

BALANCED FUND

For twelve month period, Balanced Fund recorded a gain of 2.07% to outperform the benchmark index which gained by 0.06% on year on year basis. (i.e. an index constructed with 50% weighting to the FBMKLCI and 50% to the Markit iBoxx ALBI Malaysia TRI). It was a volatile period in the year 2016 for both fixed income and equity markets.

Equity markets were in its bearish trend during the period in review, closed the year for the third consecutive negative performance. On fixed income performance, despite the weaker Malaysian Government Securities (MGS) and volatile ringgit, we manage to boost return with allocations in undervalued bonds and active management portfolio. The year 2016 also seen a lot of changes in monetary policy front with Bank Negara Malaysia (BNM) surprised the market on Overnight Policy Rate (OPR) cut and the much anticipated US Federal Reserve's (the Fed) rate hike.

Going forward, we expect the equity market may enter its recovery phase. Earnings performance is poised to improve. It is backed by better economic growth globally and domestically, recovery in oil and commodity prices and bigger local construction jobs.

DIVIDEND FUND

For twelve months period under review, Dividend Fund recorded a negative return of 3.41% ending December 2016. The fund also underperformed the benchmark by 41bps where FBMKLCI Index has dropped by 3.00%. On the longer terms however, the fund outperformed the benchmark for the period of three and five years under review by 157bps and 186bps respectively.

The underperformance in the fund was largely due to the overweighting of poor performance stocks held in the portfolio during the period. The FBMKLCI Index posted third straight annual loss as local benchmark index lost its core attractiveness. A crackdown on currency speculators has also exacerbated outflows and saw the ringgit weaken even as oil rebounded, an unusual phenomenon for East Asia's only net exporter of the commodity. Unfavorable political development had also affected the sentiment on the Bursa Malaysia.

Moving forward, Dividend Fund will continue to focus on high dividend yielding stocks and financial fundamentally sound companies that will ensure dividend income and long term capital appreciation for the Fund.

EQUITY FUND

Equity Fund eased by 1.5% for the year ending 31 December 2016, outperforming the benchmark FBMKLCI Index by 150 bps. The benchmark, FBMKLCI Index posted a negative return of 3.0%. On the longer term, the fund also outperformed the benchmark for the period of three and five years under review by 235bps and 260bps respectively.

The negative return was largely due to the underperformance of the equity market. The FBMKLCI Index posted third straight annual loss as local benchmark index lost its core attractiveness. A crackdown on currency speculators has also exacerbated outflows and saw the ringgit weaken even as oil rebounded, an unusual phenomenon for East Asia's only net exporter of the commodity. Unfavorable political development had also affected the sentiment on the Bursa Malaysia.

Moving forward, investment strategy will remain centered on well-managed liquid stocks with positive growth prospects with strong earnings visibility. Stocks with strong cash flows and proactive capital management will also be considered.

JATI FUND

Jati Fund has posted a negative return of 5.86% for the year ending 31 December 2016. The fund however had outperformed the benchmark FBM Shariah Index which posted a loss of 6.14% for the same period under review.

The negative return of the benchmark index was in-line with the negative performance of the FBM KLCI Index. A crackdown on currency speculators has also exacerbated outflows and saw the ringgit weaken even as oil rebounded, an unusual phenomenon for East Asia's only net exporter of the commodity. Unfavorable political development had also affected the sentiment on the Bursa Malaysia.

Jati Fund invests in Shariah approved securities listed on the Bursa Malaysia with a strategy to ensure sustainable long term growth for the fund. Investment strategy will remain centered on well-managed liquid stocks that exhibit positive growth prospects with strong earnings visibility. Stocks with strong cash flows and proactive capital management will also be considered.

INCOME FUND

For the year ended 31 December 2016, the Income Fund has impressively outperformed its required benchmark by 373bps (3.73%) when the fund returned 6.82% compared to its benchmark of only 3.09%. The Fund continued to outperform as a result of rigorous and active portfolio management in seeking excess return, even though the local bond market has been challenging with MGS closed weaker during the year 2016. Yield went up 4 to 16 bps during the period. Ringgit was very volatile with starting out at MYR4.29/USD in early 2016 and continued to strengthen during first quarter before it turned weaker again for the rest of the year to end at MYR4.48/USD. Meanwhile, Brent crude oil price surged 52% during the year from USD37.28 per barrel to USD56.82 per barrel after hit the bottom and the Organization of the Petroleum Exporting Countries' (OPEC) decision to cut supply on second half of the year.

BNM has surprisingly lowered the OPR by 25bps to 3.00% on 13 July 2016, causing a knee-jerk rally in ringgit bonds. While in December, the Fed raised its Fed Funds Rate by 25bps to a range of 0.50% and 0.75% at its Federal Open Market Committee (FOMC) meeting on 13-14 December 2016.

ASIAPAC FUND

AsiaPac Fund, a feeder fund that invests in CIMB S&P Ethical Asia Pacific Dividend ETF listed in Singapore, aims to provide investment results that closely correspond to the performance of the benchmark index, S&P Ethical Pan Asia Select Dividend Opportunities Index.

For twelve months period ending 31st December 2016, the fund gave a positive return of 5.86% compared to benchmark of 1.21%. The fund has also outperformed the index for three years period to post return of 6.13%, versus the benchmark return of -7.18%. The outperformance was mainly due to higher translation gain caused by weakening ringgit against US dollar.

In Asia Pacific region, China recorded as the worst performing market in the world this year. Starting with a botched attempt to reduce volatility that instead triggered a spectacular meltdown, Chinese bourses have spent the year struggling against feckless policymakers, massive capital flight and a languishing currency. The benchmark Shanghai Composite Index (SCI) struggled towards the finish line, down 12.5% y-o-y, compared to falls of 0.6% by the Hang Seng Index in Hong Kong. However in other markets, Thailand SET Index was the best performing market to increase 19.8% y-o-y, followed by Indonesia JCI Index by 15.3% y-o-y and Australia's ASX Index gained by 7.0%.

GLOBAL YAKIN FUND

Global Yakin Fund is a feeder fund that invests in Aberdeen Islamic World Equity Fund (AIWEF) that managed by Aberdeen Islamic Asset Management Sdn Bhd. It aims for capital appreciation in the long term by investing in an international portfolio of Shariah-compliant equities and equity-related securities of companies with good growth potential.

For twelve month under review, the fund had grew 7.7%, outperformed the benchmark, MSCI AC World Islamic Index of 5.67%. For the three year period under review, the fund also outperformed the benchmark to gave a return of 6.44%, versus the benchmark return of -0.66%. It was a positive year for global markets in 2016, where most of the indices posted higher return compared with the year earlier. The better sentiment was backed by stronger than expected of economic numbers in the US and the eurozone, stronger dollar and stable oil price.

STATEMENT BY THE MANAGER

In the opinion of MCIS Insurance Berhad ('the Manager'), the accompanying financial information of the Investment-Linked Funds of MCIS Insurance Berhad, comprising the Balanced Fund, Equity Fund, Income Fund, Jati Fund, Dividend Fund, AsiaPac Fund and Global Yakin Fund set out on pages 32 to 78 have been prepared in accordance with the accounting policies as described in Note 2.2 to the financial information and the Guidelines on Investment-Linked Insurance/Takaful Business issued by Bank Negara Malaysia.

On behalf of MCIS Insurance Berhad

Kobus Vlok

Petaling Jaya, Malaysia

16 March 2017

**TO THE UNITHOLDERS OF THE INVESTMENT-LINKED FUNDS OF
MCIS INSURANCE BERHAD****Report on the financial information***Opinion*

We have audited the financial information of Balanced Fund, Equity Fund, Income Fund, Jati Fund, Dividend Fund, AsiaPac Fund and Global Yakin Fund (collectively referred to as "the Funds"), which comprise the statements of assets and liabilities as at 31 December 2016, and the statements of income and expenditure, statements of changes in net asset value of the Funds for the year then ended, and notes to the financial information, including a summary of significant accounting policies, as set out on pages 32 to 78.

In our opinion, the accompanying financial information of the Funds for the year ended 31 December 2016 are prepared, in all material respects, in accordance with the accounting policies as described in Note 2.2 to the financial information and the Guidelines on Investment-linked Insurance/Takaful Business issued by Bank Negara Malaysia.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the (*Auditors' responsibilities for the audit of the financial information*) section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

We draw attention to Note 2.1 to the financial information of the Funds, which describes the basis of accounting. The financial information of the Funds are prepared to assist the Funds in complying with the Guidelines on Investment-linked Insurance/Takaful Business issued by Bank Negara Malaysia. As a result, the financial information of the Funds may not be suitable for another purpose. Our report is intended solely for the unitholders of the Funds, as a body and should not be distributed to or used by parties other than the unitholders of the Funds. Our opinion is not modified in respect of this matter.

Independence and other ethical responsibilities

We are independent of the Funds in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information other than the financial information and auditors' report thereon

The directors of the Manager ("the directors") are responsible for the other information. The other information comprises the information contained in the Annual Report of the Funds, but does not include the financial information of the Funds and our auditors' report thereon.

Our opinion on the financial information of the Funds does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial information of the Funds, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial information of the Funds or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial information

The directors are responsible for the preparation of financial information of the Funds that give a true and fair view in accordance with the accounting policies as described in Note 2.2 to the financial information and the Guidelines on Investment-linked Insurance/Takaful Business issued by Bank Negara Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial information of the Funds that are free from material misstatement, whether due to fraud or error.

In preparing the financial information of the Funds, the directors are responsible for assessing the Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Funds or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial information

Our objectives are to obtain reasonable assurance about whether the financial information of the Funds as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial information.

Auditors' responsibilities for the audit of the financial information (Cont'd.)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial information of the Funds, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial information of the Funds or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial information of the Funds, including the disclosures, and whether the financial information of the Funds represent the underlying transactions and events in a manner achieves fair presentation.

We communicate with the directors of the manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other matters

This report is made solely to the unitholders of the Investment-Linked Funds of MCIS Insurance Berhad and for no other purpose. We do not assume responsibility to any other person for the content of this report.

The accompanying notes form an integral part of the financial statements.

1. The manager and its principal activity

The Investment-Linked Funds of the Manager comprise the Balanced Fund, Equity Fund, Income Fund, Jati Fund, Dividend Fund, AsiaPac Fund and Global Yakin Fund (collectively referred to as “the Funds”).

MCIS Insurance Berhad, the Manager is a public limited liability company incorporated and domiciled in Malaysia and licensed under the Financial Services Act, 2013. Its principal activity is the underwriting of life and investment-linked insurance.

The financial information was authorised for issue by the Board of Directors of the Manager in accordance with a resolution on 16 March 2017.

2. Significant accounting policies

2.1 Basis of preparation

The financial information of the Funds has been prepared in accordance with the accounting policies described in Note 2.2 to the financial information and the Guidelines on Investment-Linked Insurance/Takaful Business issued by Bank Negara Malaysia (“BNM”).

The financial information has been prepared under the historical cost convention except as disclosed in the significant accounting policies in Note 2.2 to the financial information.

The financial information is presented in Ringgit Malaysia (“RM”).

2.2 Summary of significant accounting policies

a) Revenue recognition

Revenue is recognised when it is probable that the economic benefits associated with the transaction will flow to the Funds and the amount of the revenue can be measured reliably.

- i) Interest income and profit from investments are recognised on accrual basis that reflects the effective yield of the asset.
- ii) Dividend income is recognised when the right to receive payment is established.
- iii) Net proceeds arising from the sale of investments are set off against the weighted average cost of investments. The resulting gains or losses are taken to the statements of income and expenditure.

b) Management fee

Management fees are charged based on the respective Fund's daily net asset value, at the following rates:

Balanced Fund	1.25% per annum
Equity Fund	1.40% per annum
Income Fund	0.50% per annum
Jati Fund	1.35% per annum
Dividend Fund	1.50% per annum
AsiaPac Fund	0.85% per annum
Global Yakin Fund	0.85% per annum

c) Net creation of units

Net creation of units represents premiums paid by policyholders as payment for a new insurance contract or subsequent payments to increase the amount of that contract. Net creation of units is recognised on a receipt basis.

d) Net cancellation of units

Net cancellation of units represents cancellation of units arising from surrenders and withdrawals. Cancellation is recognised upon surrendering and withdrawal of the related insurance contract.

e) Income tax

Income tax on the surplus or deficit for the year comprises current and deferred tax. Current tax is the expected amount of income taxes payable in respect of the taxable income for the year and is measured using the tax rates that have been enacted at the reporting date.

Deferred tax is provided for, using the liability method. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised.

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the reporting date. Deferred tax is recognised in the statements of income and expenditure, except when it arises from a transaction which is recognised directly in unitholders' account, in which case the deferred tax is also charged or credited directly in unitholders' account.

f) Financial assets

Financial assets are recognised in the statements of assets and liabilities when the Funds become a party to the contractual provisions of the financial instrument.

When financial assets are recognised initially, they are measured at fair value plus, in the case of financial assets not at fair value through profit or loss, directly attributable transaction costs.

The Funds determine the classification of its financial assets at initial recognition, and the categories include financial assets at fair value through profit or loss ("FVTPL") and loans and receivables ("LAR").

i) Financial assets at FVTPL

Financial assets are classified as financial assets at FVTPL if they are held for trading or are designated as such upon initial recognition. Financial assets designated as FVTPL upon initial recognition include debt securities, equity securities and unit and property trust funds.

Subsequent to initial recognition, financial assets at FVTPL are measured at fair value. Changes in the fair value of the financial instruments are recorded in 'unrealised capital gain/loss' in the statements of income and expenditure. Interest earned and dividend revenue are recorded separately in 'interest/profit income' and 'dividend income'.

The fair values of quoted equity securities, quoted exchange traded funds and real estate investment trusts are determined by reference to closing bid prices quoted on Bursa Malaysia Securities Berhad and Bloomberg Limited Partnership.

The fair value of unquoted debt securities is determined by references to indicative market prices obtained from Bondweb which is provided by Bond Pricing Agency Malaysia ("BPAM").

ii) LAR

Financial assets with fixed or determinable payments that are not quoted in an active market are classified as LAR. The Fund includes deposits with financial institutions, cash at banks and short term receivables in this classification.

Subsequent to initial recognition, LAR are measured at amortised cost using the effective interest method. Gains and losses are recognised in the statements of income and expenditure when the LAR are derecognised or impaired, and through the amortisation process.

g) Impairment of financial assets

The Funds assess at each reporting date whether there is any objective evidence that a financial asset classified as LAR is impaired.

To determine whether there is objective evidence that an impairment loss on a financial asset has been incurred, the Funds consider factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

If any such evidence exists, the amount of impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The impairment loss is recognised in the statements of income and expenditure.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets.

If in a subsequent year, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of reversal is recognised in the statements of income and expenditure.

h) Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability.

Financial liabilities are recognised in the statements of assets and liabilities when, and only when, the Funds become a party to the contractual provisions of the financial instrument. Financial liabilities are classified as other financial liabilities at fair value through profit or loss or at amortised cost, as appropriate.

The Funds' other financial liabilities which include other payables are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

A financial liability is derecognised when the obligation under the liability is extinguished. Gains and losses are recognised in the statements of income and expenditure when the liabilities are derecognised, and through the amortisation process.

i) Unitholders' account

Unitholders' account of the Funds represent equity instruments in the statements of assets and liabilities.

j) Foreign currency transactions

Transactions in foreign currencies are initially recorded in the functional currency rate prevailing at the dates of the transaction. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange ruling at the reporting date. All differences are taken to the statements of income and expenditure. Non-monetary items denominated in foreign currencies that are measured at historical cost are translated using the exchange rates as at the dates of initial transactions.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. All foreign exchange differences are taken to statements of income and expenditure, except for differences relating to items where gains or losses are recognised directly in unitholders' account, in which case, the gain or loss is recognised net of the exchange component in unitholders' account.

MCIS Insurance Berhad

Pemegang Polisi yang dihargai,

Kami menghargai sokongan anda terhadap rangkaian solusi dana berkaitan pelaburan (Dana I-Linked). Tahun 2016 menyaksikan peningkatan jumlah pelanggan keseluruhannya memilih portfolio dana I-Linked yang mencerminkan keyakinan dalam keupayaan kami untuk menguruskan dana pilihan anda. Laporan prestasi dana tahunan ini membolehkan anda menilai bagaimana setiap dana mengatasi keadaan ekonomi global dan tempatan yang sangat mencabar sepanjang 2016 bukan sahaja kepada syarikat insurans tetapi juga kepada semua sektor perkhidmatan kewangan yang lain.

Latar Belakang Ekonomi

Bagi tahun 2016, Tabung Kewangan Antarabangsa (IMF) menjangkakan ekonomi global berkembang kukuh pada kadar 3.1% berbanding dengan 2015 pada 3.2%. Ekonomi global berjaya menukar haluan ke aliran kadar yang agak baik walaupun dalam keadaan ekonomi yang tidak memberangsangkan. Purata kadar pertumbuhan yang stabil ini bagaimanapun berbeza perkembangannya dalam setiap kumpulan negara. Antara negara berekonomi maju seperti Amerika Syarikat, aktiviti kembali melonjak kukuh selepas setengah tahun yang pertama pada 2016 dan ekonomi menghampiri guna tenaga penuh. Keluaran kekal di bawah potensi bagi kebanyakkan negara-negara maju yang lain terutamanya di zon euro.

Tahun 2016 juga menyaksikan beberapa peristiwa penting yang telah memberi kesan terhadap risiko geopolitikal. Ini termasuk "Brexit", Donald Trump menjadi Presiden Amerika Syarikat dan komitmen ahli-ahli Pertubuhan Negara-Negara Pengekspor Petroleum (OPEC) dan bukan ahli untuk mengawal harga minyak.

Pada Jun 2016, tanpa dijangka, rakyat Britain telah mengundi keluar dari Kesatuan Eropah (EU) yang lebih dikenali sebagai Brexit, menyebabkan pound British jatuh menjunam dan juga indeks penanda aras FTSE100 mencatat penurunan 11% dan 9% pada hari pasaran berikutnya. British pound ditutup tahun ini pada GBP 0.8101/USD (-19% tahun-ke-tahun). Peringkat awal pertumbuhan suku ke-3 agak menyakinkan daripada yang diramalkan sebelum ini di beberapa negara seperti Sepanyol dan United Kingdom, di mana permintaan domestik bertahan lebih baik dari jangkaan selepas Brexit.

Di tengah-tengah halangan di zon euro, ekonomi euro masih berjaya mencatatkan 14 suku pertumbuhan berturut-turut pada suku ke-4 2016 pada 0.5% suku-ke-suku, berbanding 0.3% suku-ke-suku tahun yang sama sebelumnya.

Kadar pengangguran juga telah kembali kepada satu angka ke 9.6% pada Disember 2016 daripada 10.5% pada Disember 2015. Sentimen ekonomi telah mencapai tahap tertinggi dalam tempoh enam tahun, dengan kadar inflasi yang meningkat. Indeks harga pengguna melonjak sebanyak 1.8% tahun-ke-tahun dari 0.2% pada Disember 2015. Ini terutamanya disebabkan oleh harga pasaran asas tenaga. Manakala paras inflasi kekal pada 0.9%.

Pada November 2016, Donald Trump tanpa dijangka telah memenangi Pilihanraya Presiden Amerika Syarikat. Pasaran global menjunam pada kadar turun naik yang ketara, di tengah-tengah ketidaktentuan samada pentadbiran di bawah Presiden Trump akan memberi kesan kepada dasar-dasar ekonomi AS dan ekonomi dunia. Pada 14 Disember 2016 pula kadar faedah Rizab Persekutuan AS meningkat daripada 0.50% kepada 0.75%. Ini mewakili kenaikan kedua dalam tempoh satu dekad. Pengumuman kemenangan beliau bagaimanapun telah mendorong unjuran sentimen global.

Menurut anggaran “awalan” yang dikeluarkan oleh Biro Analisis Pertumbuhan Ekonomi, keluaran dalam negara kasar (KDNK) Amerika Syarikat meningkat pada kadar tahunan sebanyak 1.9% pada suku ke-4 tahun 2016 (0.7% pada suku ke-4 2015). Pada suku ke-3, KDNK naik 3.5%. Peningkatan KDNK pada suku ke-4 mencerminkan sumbangan positif daripada perbelanjaan pengguna; pelaburan inventori swasta, pelaburan tetap kediaman, pelaburan tetap bukan kediaman dan perbelanjaan kerajaan negeri dan tempatan yang sebahagiannya diimbangi oleh pengurangan sumbangan daripada hasil eksport dan perbelanjaan kerajaan persekutuan. Manakala kadar import yang merupakan penolakan dalam pengiraan KDNK, meningkat.

Pada suku terakhir tahun 2016 menyaksikan pertumbuhan ekonomi negara China dengan kenaikan sebanyak 6.8% tahun-ke-tahun, disokong oleh perbelanjaan kerajaan dan ledakan industri hartanah. Ekonomi kedua terbesar di dunia berkembang 6.7% daripada suku tahun sebelumnya. Pertumbuhan penuh tahunan adalah 6.7%, menurun daripada 6.9% pada tahun 2015 dan ini adalah yang terendah dalam tempoh 26 tahun kerana ia berpotensi ke arah pertempuran perdagangan dengan Presiden Amerika Syarikat yang dilantik iaitu Donald Trump. Trump telah berjanji untuk meningkatkan duti ke atas barang China dan ini memberikan tekanan ke atas industri yang menggunakan berjuta-juta pekerja itu.

Awal tahun ini menyaksikan harga minyak mentah mencecah paras terendah dalam masa 12 tahun, kurang daripada USD30 setong. Krisis syarikat-syarikat minyak menyaksikan pembuangan pekerja yang berterusan dan kemelut pasaran mata wang dari negara-negara pengeluar komoditi, kerana inventori minyak mentah meningkat jauh melebihi jangkaan penganalisis. Walau bagaimanapun pada November 2016, buat pertama kali dalam tempoh lapan tahun OPEC bersetuju mengurangkan pengeluaran minyak bagi mengelakkan lambakan bekalan inventori minyak global. Ahli-ahlinya bersetuju mengurangkan pengeluaran sebanyak 1.2 juta tong sehari. Berikutnya dari itu, harga penanda aras meningkat sebanyak 10% akibat dari kesepakatan dan juga dirangsang oleh kelebihan matawang pengeksport disamping harga saham syarikat-syarikat berasas tenaga. Pada 5 Disember 2016, harga minyak mentah Brent melonjak ke paras 16-bulan tertinggi melebihi USD55. Pada akhir tahun 2016, harga minyak berakhir pada USD56.82 setong (+ 52% tahun-ke-tahun).

Di Malaysia, pertumbuhan penuh tahunan sebenar keluaran dalam negara kasar (KDNK) berkurangan kepada 4.2% tahun-ke-tahun bagi 2016 berbanding 5.0% yang dicatatkan pada tahun 2015. Ini terutamanya disebabkan oleh kelembapan yang berterusan ke atas permintaan dalam negara. Pada suku tahunan, KDNK sebenar meningkat mengatasi jangkaan pada suku ke-4 dengan pertumbuhan sebanyak 4.5% tahun-ke-tahun daripada 4.3% pada suku ke-3 dan 4% pada suku ke-2. Kenaikan didorong terutamanya oleh pemulihian dalam pertumbuhan eksport dan perkembangan yang sihat dalam pembentukan modal tetap kasar serta pengumpulan inventori, yang mengurangkan kelembapan dalam sektor swasta dan kerajaan.

Nilai eksport dalam USD meningkat 6.7% setiap tahun pada bulan Disember, selepas pengukuhan 8.7% pada November. Begitu juga eksport tahun-ke-tahun, rakan perdagangan Malaysia di tiga teratas iaitu China, Singapura dan Kesatuan Eropah - mengukuh pada Disember dan merekodkan peningkatan sebanyak dua digit. Menurut Institut Statistik Kebangsaan, pengukuhan pada bulan Disember adalah sangat meluas kerana ia mencerminkan peningkatan dalam eksport produk elektronik, minyak sawit dan produk berasaskan sawit dan minyak mentah. Gas asli cecair (LNG) adalah satu-satunya kategori utama yang mencatatkan penurunan tetapi ia tidak dapat mencegah peningkatan keseluruhan bulan. Import juga meningkat pada bulan Disember pada 7.6% tahun-ke-tahun tetapi pada kadar yang lebih perlahan daripada pengembangan November iaitu pada 12.1% tahun-ke-tahun.

Sementara itu, inflasi meningkat 1.8% tahun-ke-tahun pada Disember 2016, menyamai pada bulan November tetapi di bawah sedikit dari jangkaan pasaran 1.9%. Kadar inflasi bagi Disember 2016 berada pada tahap tertinggi sejak Mei, terutamanya disebabkan oleh kenaikan harga makanan dan minuman bukan beralkohol, manakala inflasi perumahan dan utiliti adalah stabil dan kos pengangkutan jatuh lebih rendah daripada bulan sebelumnya.

Prestasi Pasaran Kewangan

2016 adalah tahun yang positif bagi pasaran global tetapi agak sukar bagi pasaran tempatan dengan pelbagai isu serta halangan. Bagi tempoh dua belas bulan berakhir pada 31 Disember 2016, Dow Jones Amerika Syarikat dan Indeks S&P 500 telah mencatatkan pertumbuhan positif yang kukuh untuk ditutup pada 19,762.6 mata dan 2,238.8 mata, masing-masing meningkat sebanyak 13% dan 9.5%. Sementara itu, di zon euro, prestasi juga menggalakkan. Indeks FTSE 100 United Kingdom menunjukkan kenaikan sebanyak 14.4% untuk mengakhiri tahun ini pada 7,142.8 mata manakala DAX Jerman dan Indeks CAC40 Perancis masing-masing meningkat sebanyak 6.9% dan 4.9% kepada 11,481.06 mata dan 4,862.31 mata.

Di Asia, China direkodkan sebagai negara yang menunjukkan prestasi pasaran yang paling buruk di dunia bagi tahun 2016. Bermula dengan satu percubaan yang gagal untuk mengurangkan ketidaktentuan aliran turun naik pasaran sebaliknya telah mencetuskan krisis kegawatan; bursa China telah menghabiskan tahun ini berusaha menentang dasar tidak berasas, pembaziran modal besar-besaran dan mata wang yang lemah. Penanda aras Indeks Komposit Shanghai (SCI) bergelut mengakhiri penamat tahun dengan penurunan 12.5% tahun-ke-tahun, berbanding penurunan 0.6% oleh Indeks Hang Seng di Hong Kong dan 2.2% oleh Jepun Nikkei 300. Sementara itu bagi rantau Asia Tenggara, Indeks SET Thailand menyaksikan prestasi yang terbaik dengan kenaikan 19.8% tahun-ke-tahun, yang diikuti oleh Indeks JCI Indonesia yang meningkat 15.3% tahun-ke-tahun.

Di Malaysia, Indeks FBMKLCI menurun 3% untuk tahun ketiga berturut-turut kepada 1,641.73 mata, tahun-ke-tahun (-3.9% pada 2015 dan -5.6% pada tahun 2014). Peningkatan kadar faedah di Amerika Syarikat pada Disember menyebabkan pertumbuhan besar-besaran menggalakkan penglibatan pelaburan asing pada paras rekod, meletakkan tekanan ke atas ringgit dan menyebabkan penurunan nilai melebihi paras RM4.45/USD. Menjelang akhir tahun, ringgit terus susut kepada paras RM4.48/USD. Aliran keluar bersih dari pelaburan asing mencecah RM1 bilion pada Disember 2016.

Dari sudut pasaran bon tempatan, sedikit usaha telah diberikan oleh Bank Negara Malaysia (BNM) pada awal tahun ini apabila ia mengurangkan Nisbah Keperluan Rizab Berkutan (SRR) bagi institusi perbankan daripada 4.0% kepada 3.5% pada 19 Januari 2016 walaupun BNM telah mengekalkan Kadar Dasar Semalam (OPR) pada 3.25%.

Pada bulan April, kita juga menyaksikan pelantikan Datuk Muhammad Ibrahim sebagai Gabenor baharu menggantikan Tan Sri Dato' Sri Dr. Zeti Akhtar Aziz yang bersara. Pelantikan itu meredakan kebimbangan terhadap pasaran kerana Datuk Muhammad adalah calon yang dianggap paling layak untuk jawatan tersebut dan beliau dijangka dapat meneruskan pelaksanaan kerja-kerja dan usaha oleh BNM.

Pada 13 Julai 2016, BNM menurunkan OPR sebanyak 25bps kepada 3.00%, menyebabkan reaksi mengejutkan terhadap bon ringgit. Keuntungan, bagaimanapun, kembali rendah selepas gabenor bank pusat mengumumkan tiada rancangan untuk pemotongan kadar pada 2016, di samping menjelaskan bahawa penurunan kadar Julai adalah lebih kepada langkah pencegahan awal.

Kadar hasil Sekuriti Kerajaan Malaysia (MGS) ditutup lemah pada 2016 dengan kadar hasil yang lebih tinggi keseluruhannya. Kadar hasil meningkat antara 4 hingga 16 bps sepanjang tahun. Ringgit sangat tidak menentu pada tahun ini dengan USD/RM bermula dengan RM4.29/USD pada awal 2016 dan terus kukuh pada suku pertama sebelum menjadi lemah kembali untuk bulan selebihnya. Pada akhir tahun 2016, ringgit ditutup pada RM4.48/USD (menurun sebanyak 4.22% tahun-ke-tahun).

Prestasi Dana

Bagi tempoh dua belas bulan berakhir pada 31 Disember 2016, Dana Ekuiti susut sebanyak 1.5%, mengatasi Indeks FBMKLCI. Indeks penanda aras mencatatkan pulangan negatif sebanyak 3.0%. Dana Dividen juga mencatatkan pulangan negatif 3.41%, dibawah penanda aras sebanyak 41 mata asas. Kedua-dua dana bagaimanapun, berjaya mengatasi penanda aras bagi tempoh tiga dan lima tahun di bawah kajian. Selaras dengan prestasi pasaran negatif, Dana Jati mencatatkan pulangan negatif sebanyak 5.86%. Bagaimanapun dana itu mengatasi prestasi Indeks FBM Shariah yang mencatatkan penurunan sebanyak 6.14%.

Indeks FBMKLCI mencatatkan kerugian tahunan ketiga berturut-turut dimana indeks penanda aras tempatan kehilangan daya tarikan terasnya. Tindakan melampau spekulator mata wang juga telah memburukkan lagi aliran keluar dengan menyebabkan ringgit melemah walaupun pasaran minyak pulih, satu fenomena yang luar biasa bagi pengeksport komoditi bersih Asia Timur. Perkembangan politik yang tidak memuaskan juga turut menjelaskan sentimen di Bursa Malaysia.

Dana-dana lain yang memberi tumpuan kepada aset kurang berisiko iaitu Dana Seimbang dan Dana Pendapatan berjaya mengatasi indeks penanda aras bagi tempoh yang sama dalam ulasan. Dana Seimbang meningkat sebanyak 2.07% manakala indeks penanda arasnya menunjukkan peningkatan sebanyak 0.06%. Prestasi Dana Pendapatan amat memberangsangkan dengan mengatasi penanda arasnya sebanyak 373 bps (3.73%) apabila dana meningkat sebanyak 6.82% berbanding dengan penanda arasnya yang mencatatkan keuntungan sebanyak 3.09%. Walaupun menghadapi cabaran dalam pasaran bon pada tahun 2016, dana terus meningkat kesan daripada pengurusan portfolio yang teliti dan aktif dalam mencari pulangan yang berlebihan.

Dana AsiaPac, melabur dalam CIMB S&P Ethical Asia Pacific Dividend ETF disenaraikan di Singapura, memberi pulangan positif sebanyak 5.86% berbanding dengan penanda aras sebanyak 1.21%. Dana juga mengatasi indeks bagi tempoh tiga tahun untuk memberikan pulangan sebanyak 6.13% berbanding penanda aras -7.18%. Prestasi cemerlang ini adalah disebabkan oleh keuntungan pertukaran mata wang asing yang lebih tinggi disebabkan oleh kelemahan ringgit berbanding dolar Amerika Syarikat.

Sementara itu, Dana Global Yakin, dana pengantara yang melabur dalam Dana Aberdeen Islamic World Equity (AIWEF), yang diuruskan oleh Aberdeen Islamic Asset Management Sdn Bhd, meningkat sebanyak 7.7%, mengatasi penanda aras Indeks MSCI AC World Islamic iaitu 5.67%. Ia adalah satu tahun yang positif bagi pasaran global pada 2016, di mana kebanyakan indeks mencatatkan pulangan yang lebih tinggi berbanding dengan tahun sebelumnya. Sentimen yang lebih baik ini disokong oleh pertumbuhan ekonomi Amerika Syarikat dan zon euro yang lebih baik, pengukuhan dolar dan harga minyak yang stabil.

Dalam pasaran tempatan pula, selepas mengalami pertumbuhan negatif tiga tahun berturut-turut, terdapat tanda-tanda bahawa pasaran akan pulih pada tahun 2017. Ini dilihat positif bagi dana tempatan iaitu Dividen, Ekuiti dan Jati, yang memberi tumpuan kepada sekuriti yang tersenarai di Bursa.

Melangkah ke hadapan, strategi pelaburan kami akan kekal memberi tumpuan kepada saham-saham cair yang diuruskan dengan baik dan menunjukkan prospek pertumbuhan yang memberangsangkan serta mempunyai potensi perolehan yang kukuh. Saham dengan aliran tunai yang kukuh dan pengurusan modal proaktif juga akan dipertimbangkan.

Pasukan Pelaburan kami sentiasa berusaha mencari nilai yang baik dalam pemilihan sekuriti agar seiring dengan objektif jangka panjang dana-dana ini.

Bagi pihak syarikat, saya mengambil kesempatan ini untuk mengucapkan terima kasih sekali lagi atas sokongan anda sebagai pemegang polisi I-Linked kami yang dihargai.

Kami berharap untuk terus mencipta nilai-nilai pelaburan anda bersama kami di masa hadapan.

Kobus Vlok

Ketua Pegawai Eksekutif
MCIS Insurance Berhad

Dana Seimbang MCIS adalah portfolio pelbagai yang merangkumi ekuiti, pendapatan tetap dan instrumen pasaran kewangan dalam nisbah berlainan bertujuan untuk menyediakan pulangan terbaik dan pada masa yang sama melindungi daripada sebarang perkembangan yang negatif dalam pelaburan. Objektifnya adalah untuk mengimbangi modal dan pertumbuhan pendapatan serta menarik minat pelabur konservatif. Walaupun tumpuan utamanya adalah kepada ekuiti dan pendapatan tetap, nisbah peruntukan pada bila-bila masa untuk kedua-duanya akan bergantung kepada situasi pasaran dan keadaan ekonomi semasa.

Dana Ekuiti MCIS memberi lebih tumpuan kepada pelaburan dalam ekuiti untuk mencapai peningkatan modal dalam jangka sederhana hingga jangka panjang. Selain ekuiti, dana ini juga akan melabur dalam instrumen pasaran kewangan di mana peruntukan sebenar adalah berdasarkan situasi pasaran dan keadaan ekonomi semasa serta faktor-faktor teknikal. Dana ini sesuai untuk pelabur agresif.

Dana Pendapatan MCIS memberi tumpuan kepada objektifnya untuk menyediakan agihan pendapatan secara teratur dan pada masa yang sama mengekalkan modalnya – khusus untuk pelabur yang tidak menggemari risiko. Walaupun dana ini lebih cenderung kepada instrumen pendapatan tetap, ia mungkin juga dilaburkan dalam pasaran kewangan. Keputusan mengenai peruntukan aset-aset dan nisbahnya adalah bergantung kepada pandangan pengurus dana mengenai keadaan makroekonomi tempatan dan global.

Dana Jati MCIS memberi tumpuan kepada keperluan pelabur-pelabur beragama Islam dan ia dilaburkan berlandaskan prinsip-prinsip Shariah di dalam ekuiti, instrumen pasaran kewangan dan instrumen pendapatan tetap yang dibenarkan dalam pelbagai nisbah, bergantung kepada keadaan pasaran dan ekonomi pada masa tersebut. Walau bagaimanapun, dana ini lebih cenderung kepada pelaburan dalam ekuiti. Objektif dana ini adalah untuk melabur dalam syarikat-syarikat yang menyediakan prospek yang baik untuk peningkatan modal dalam jangka sederhana hingga jangka panjang. Walaupun Dana Jati dilaburkan dalam sekuriti yang diluluskan oleh Shariah, dana ini bukan produk Takaful.

Dana Dividen MCIS bermatlamat untuk menjana aliran pendapatan yang mantap dan berpotensi untuk pertumbuhan modal dalam jangka sederhana hingga jangka panjang dengan lebih tertumpu kepada saham-saham dengan dividen yang tinggi dan instrumen pasaran kewangan.

Dana AsiaPac MCIS bertujuan untuk menyediakan para pelabur dengan pendedahan serantau di pasaran ekuiti Asia Pacific melalui pelaburan dalam CIMB S&P Ethical Asia Pacific Dividend ETF. ETF ini diurus oleh CIMB Principal Asset Management Berhad dan disenarai di Bursa Saham Singapura. ETF ini melabur dalam 40 saham utama berprestasi tinggi di rantau Asia Pacific tidak termasuk India, Taiwan, Jepun, New Zealand dan Filipina.

Dana Global Yakin MCIS bertujuan untuk menjana peningkatan modal dalam jangka panjang melalui pelaburan dalam portfolio antarabangsa ekuiti dan sekuriti berkaitan ekuiti syarikat-syarikat yang mematuhi-Shariah dengan potensi pertumbuhan yang baik. Dana ini disalurkan ke dalam Dana Aberdeen Islamic World Equity yang diuruskan oleh Aberdeen Islamic Asset Management Sdn Bhd. Dana tersebut melabur dalam sekuriti yang dibenarkan oleh Shariah di seluruh dunia.

DANA SEIMBANG

Untuk tempoh dua belas bulan, Dana Seimbang mencatatkan keuntungan sebanyak 2.07% mengatasi indeks penanda aras yang meningkat sebanyak 0.06% berasaskan tahun-ke-tahun (iaitu indeks yang ditakrif dengan 50% wajaran kepada FBMKLCI dan 50% kepada Indeks Markit iBoxx ALBI Malaysia TRI). Ia adalah tempoh yang tidak menentu pada tahun 2016 untuk kedua-dua pendapatan tetap dan pasaran ekuiti.

Pasaran ekuiti berada dalam trend menurun dalam tempoh ulasan, dengan prestasi ditutup negatif dalam masa tiga tahun berturut-turut. Di sebalik kelemahan Sekuriti Kerajaan Malaysia (MGS) dan ringgit yang tidak menentu, pendapatan tetap masih berjaya meningkatkan pulangan dengan peruntukan dalam bon di bawah nilai dan pengurusan portfolio yang aktif. Tahun 2016 juga menyaksikan banyak perubahan dari segi dasar kewangan dengan Bank Negara Malaysia (BNM) mengejutkan pasaran dengan potongan Kadar Dasar Semalam (OPR) dan jangkaan kenaikan kadar Rizab Persekutuan AS (Fed).

Melangkah ke hadapan, kami menjangkakan pasaran ekuiti akan memasuki fasa pemulihan. Prestasi perolehan dijangka bertambah baik. Ia disokong oleh pertumbuhan ekonomi yang bertambah baik di peringkat global dan domestik, pemulihan harga minyak dan komoditi, serta sektor pembinaan tempatan yang lebih mengalakkam.

DANA DIVIDEN

Bagi tempoh dua belas bulan dalam ulasan, Dana Dividen telah mencatatkan pulangan negatif 3.41% untuk tempoh berakhir Disember 2016. Prestasi ini bagaimanapun mengatasi penanda arasnya sebanyak 41bps di mana Indeks FBMKLCI telah menurun sebanyak 3.00%. Walau bagaimanapun untuk tempoh jangka panjang, dana telah diuruskan dengan baik untuk mengatasi penanda aras bagi tempoh tiga dan lima tahun di bawah ulasan masing-masing pada 157bps dan 186bps.

Prestasi dana yang kurang memuaskan adalah sebahagian besarnya disebabkan oleh lebihan peruntukan terhadap saham berprestasi lemah dalam portfolio pada tempoh tersebut. Indeks FBMKLCI mencatatkan kerugian tahunan ketiga berturut-turut disebabkan indeks penanda aras tempatan kehilangan daya tarikan. Tindakan keras ke atas spekulator mata wang juga telah diburukkan lagi dengan aliran keluar mawang dan melemahkan ringgit walaupun pasaran minyak pulih, ia satu fenomena yang luar biasa bagi pengeksport Asia Timur komoditi itu. Perkembangan politik yang tidak menguntungkan turut menjelaskan sentimen di Bursa Malaysia.

Melangkah ke hadapan, Dana Dividen akan terus memberi tumpuan kepada saham-saham dengan pulangan dividen tinggi dan syarikat-syarikat dengan asas kewangan yang kukuh untuk memastikan pendapatan dividen dan peningkatan modal jangka panjang untuk dana dapat dicapai.

DANA EKUITI

Dana Ekuiti susut sebanyak 1.5% bagi tahun kewangan berakhir 31 Disember 2016, mengatasi indeks penanda aras FBMKLCI sebanyak 150bps. Penanda aras, Indeks FBMKLCI mencatatkan pulangan negatif 3.0%. Untuk tempoh jangka panjang, dana juga mengatasi penanda aras bagi tempoh tiga dan lima tahun di bawah ulasan sebanyak 235bps dan 260bps.

Pulangan negatif adalah sebahagian besarnya disebabkan oleh kelembapan prestasi pasaran ekuiti. Indeks FBMKLCI mencatatkan kerugian tahunan ketiga berturut-turut disebabkan indeks penanda aras tempatan kehilangan daya tarikan. Tindakan keras ke atas spekulator mata wang juga telah diburukkan lagi dengan aliran keluar matawang dan melemahkan ringgit walaupun pasaran minyak pulih, ia satu fenomena yang luar biasa bagi pengekspor Asia Timur komoditi itu. Perkembangan politik yang tidak menguntungkan turut menjelaskan sentimen di Bursa Malaysia.

Melangkah ke hadapan, strategi pelaburan akan terus tertumpu kepada saham-saham cair yang diuruskan dengan baik serta prospek pertumbuhan positif dengan potensi perolehan yang kukuh. Saham dengan aliran tunai yang kukuh dan pengurusan modal yang proaktif juga akan dipertimbangkan.

DANA JATI

Dana Jati mencatatkan pulangan negatif 5.86% bagi tahun kewangan berakhir 31 Disember 2016. Dana ini mengatasi prestasi penanda aras Indeks FBM Shariah yang mencatakan penurunan 6.14% bagi tempoh yang sama dalam ulasan.

Pulangan negatif indeks penanda aras adalah selari dengan prestasi negatif Indeks FBMKLCI. Tindakan keras ke atas spekulator mata wang juga telah diburukkan lagi aliran keluar matawang dan melemahkan ringgit walaupun pasaran minyak pulih, ia satu fenomena yang luar biasa bagi pengekspor Asia Timur komoditi itu. Perkembangan politik yang tidak menguntungkan turut menjelaskan sentimen di Bursa Malaysia.

Dana Jati melabur dalam sekuriti berdasarkan Shariah yang disenaraikan di Bursa Malaysia dengan strategi untuk memastikan pertumbuhan jangka panjang yang mampu untuk dana. Strategi pelaburan akan kekal memberi tumpuan kepada saham-saham cair yang mempunyai asas yang kukuh dan menunjukkan prospek pertumbuhan yang memberangsangkan serta mempunyai potensi perolehan yang kukuh. Saham-saham dengan aliran tunai yang kukuh dan pengurusan modal yang proaktif juga akan dipertimbangkan.

DANA PENDAPATAN

Bagi tahun berakhir 31 Disember 2015, Dana Pendapatan telah mengatasi prestasi penanda arasnya sebanyak 373bps (3.73%) apabila memperolehi pulangan dana 6.82% berbanding dengan penanda arasnya hanya 3.09%. Dana terus meningkat akibat dari pengurusan portfolio yang teliti dan aktif dalam mencari pulangan yang berlebihan, walaupun pasaran bon tempatan amat mencabar dengan MGS ditutup lemah pada tahun 2016. Kadar hasil meningkat daripada 4 ke 16bps dalam tempoh tersebut. Ringgit yang tidak menentu bermula kukuh pada awal tahun 2016 pada RM4.29/USD dan terus mengukuh sehingga suku pertama, sebelum ia menjadi lemah sehingga hujung tahun dan ditutup pada RM4.48/USD. Sementara itu, harga minyak mentah Brent melonjak 52% pada tahun ini daripada USD37.28 setengah kepada USD56.82 setengah apabila Pertubuhan Negara-Negara Pengekspor Petroleum (OPEC) membuat keputusan untuk memotong bekalan pada separuh kedua tahun ini.

BNM telah melakukan kejutan dengan menurunkan OPR sebanyak 25bps kepada 3.00% pada 13 Julai 2016, menyebabkan sentakan dalam bon ringgit. Manakala pada bulan Disember, Fed menaikkan Kadar Dana Persekutuan sebanyak 25bps kepada julat 0.50% dan 0.75% dalam mesyuarat Jawatankuasa Pasaran Terbuka Persekutuan (FOMC) pada 13-14 Disember 2016.

DANA ASIAPAC

Dana AsiaPac, dana perantara yang melabur dalam CIMB S&P Ethical Asia Pacific Dividend ETF yang disenaraikan di Singapura, menyasarkan untuk menyediakan hasil pelaburan yang seiring dengan prestasi indeks penanda aras, Indeks S&P Ethical Pan Asia Select Dividend Opportunities.

Untuk tempoh dua belas bulan berakhir pada 31 Disember 2016, dana mencatatkan pulangan positif 5.86% berbanding dengan penanda aras sebanyak 1.21%. Prestasi dana ini juga telah mengatasi tempoh tiga tahun indeks untuk memperolehi pulangan 6.13%, berbanding penanda aras -7.18%. Prestasi cemerlang ini adalah disebabkan oleh keuntungan translasi yang lebih tinggi disebabkan oleh kelemahan ringgit berbanding dolar Amerika Syarikat.

Di rantau Asia Pasifik, China direkodkan sebagai pasaran berprestasi paling buruk di dunia tahun ini. Bermula dengan satu percubaan yang gagal untuk mengurangkan turun naik sebaliknya mencetuskan krisis kegawatan. Bursa China telah menghabiskan tahun ini berjuang menentang pengubal dasar yang tidak berfaedah, modal besar-besaran dan mata wang yang lemah. Indeks penanda aras Komposit Shanghai (SCI) bergelut ke arah garisan penamat, turun 12.5% tahun-ke-tahun, berbanding jatuh sebanyak 0.6% oleh Indeks Hang Seng di Hong Kong. Namun di pasaran lain, Thailand Indeks SET adalah pasaran berprestasi terbaik dengan meningkat sebanyak 19.8% tahun-ke-tahun, diikuti oleh Indeks Indonesia JCI sebanyak 15.3% tahun-ke-tahun dan Indeks ASX Australia memperolehi 7.0%.

KEPADA PEMEGANG-PEMEGANG UNIT DANA-DANA BERKAITAN PELABURAN MCIS INSURANCE BERHAD**Laporan mengenai maklumat kewangan****Pendapat**

Kami telah mengaudit maklumat kewangan Dana Seimbang, Dana Ekuiti, Dana Pendapatan, Dana Jati, Dana Dividen, Dana AsiaPac dan Dana Global Yakin (secara kolektifnya dirujuk sebagai "Dana-Dana"), yang terdiri daripada penyata aset dan liabiliti setakat 31 Disember 2016 dan penyata pendapatan dan perbelanjaan, penyata perubahan dalam nilai aset bersih dana pada tahun dan berakhir, dan nota untuk maklumat kewangan, termasuk satu ringkasan dasar perakaunan yang ketara,seperti yang dibentangkan di muka surat 110 ke 156.

Pada pendapat kami, maklumat kewangan Dana bagi tahun berakhir 31 Disember 2016 adalah disediakan dalam semua aspek penting, menurut dasar-dasar perakaunan seperti yang dinyatakan dalam Nota 2.2 kepada maklumat kewangan dan Garis Panduan mengenai Perniagaan Insurans/Takaful Berkaitan Pelaburan yang dikeluarkan oleh Bank Negara Malaysia.

Asas Pendapat

Kami telah menjalankan audit selaras dengan piawaian pengauditan yang diluluskan di Malaysia dan Piawaian Pengauditan Antarabangsa. Tanggungjawab kami di bawah piawaian dihuraikan dengan lanjut dalam Laporan Tanggungjawab Juruaudit bagi Audit Bahagian Maklumat Kewangan. Kami percaya bahawa bukti audit yang kami perolehi adalah mencukupi dan bersetujuan untuk menyediakan asas yang munasabah bagi pendapat audit kami.

Penekanan Perkara

Sila perhatikan Nota 2.1 kepada maklumat kewangan Dana, yang menggambarkan dasar perakaunan. Maklumat kewangan Dana disediakan untuk membantu dalam mematuhi Garis Panduan mengenai Perniagaan Insurans/Takaful Berkaitan Pelaburan yang dikeluarkan oleh Bank Negara Malaysia. Hasilnya mungkin tidak bersetujuan untuk tujuan lain. Laporan kami adalah semata-mata untuk pemegang unit Dana, sebagai sebuah badan dan tidak boleh diagihkan kepada atau digunakan oleh pihak lain selain daripada pemegang unit Dana. Pendapat kami berkenaan perkara ini adalah tidak diubahsuai.

Kebebasan Audit dan Tanggungjawab Etika lain

Kami bebas menjalankan audit ke atas Dana selaras dengan piawaian undang-undang pengauditan (atas Etika Profesional, Kelakuan dan Amalan) Institut Akauntan Malaysia (mengikut "Undang-Undang") dan 'International Ethics Standards Board of Accounts' Kod Etika untuk Akauntan Bertauliah ("Kod IESBA"), dan kami telah memenuhi tanggungjawab etika-etika lain mengikut undang-undang dan Kod IESBA.

Informasi selain daripada Maklumat Kewangan dan Laporan Juruaudit

Para Pengarah Pengurus ("Pengarah") adalah bertanggungjawab kepada maklumat-maklumat yang lain. ia terdiri daripada maklumat yang terkandung di dalam Laporan Tahunan Dana, tetapi tidak termasuk maklumat berkaitan kewangan Dana serta laporan juruaudit.

Pendapat kami ke atas maklumat kewangan Dana tidak melindungi maklumat-maklumat berkaitan yang lain dan kami tidak menyatakan sebarang bentuk jaminan kesimpulan.

Sebarang kaitan mengenai pengauditan terhadap maklumat kewangan Dana, tanggungjawab kami adalah untuk membaca maklumat-maklumat lain bagi membuat penilaian samada maklumat tersebut selaras dengan dengan maklumat kewangan Dana atau pengetahuan kami diperolehi di waktu pengauditan ataupun sebaliknya berlaku disebabkan dari salah nyata.

Sekiranya berdasarkan Pengauditan yang telah lakukan, kami membuat kesimpulan bahawa ada salah nyata yang ketara dari maklumat-maklumat lain, kami dikehendaki melaporkan fakta tersebut. Kami tidak mempunyai sebarang laporan mengenainya.

Tanggungjawab Para Pengarah Pengurus ke atas Maklumat Kewangan

Para Pengarah Pengurus ini ("pengarah") bertanggungjawab ke atas penyediaan maklumat kewangan Dana yang benar dan telus selaras dengan dasar-dasar perakaunan seperti yang dinyatakan dalam Nota 2.2 kepada maklumat kewangan dan Garis Panduan mengenai Perniagaan Insurans/Takaful Berkaitan Pelaburan yang diterbitkan oleh Bank Negara Malaysia. Para pengarah juga bertanggungjawab terhadap kawalan dalaman sebagaimana dianggap perlu oleh pengarah untuk membolehkan penyediaan maklumat kewangan yang bebas daripada salah nyata yang ketara, sama ada disebabkan oleh penipuan atau kesilapan.

Dalam menyediakan maklumat kewangan Dana, para pengarah bertanggungjawab untuk menilai keupayaan Dana sebagai satu usaha yang prihatin, mendedahkan yang mana berkenaan serta perkara-perkara yang berkaitan dengan usaha berterusan dan menggunakan asas perakaunan ke atas usaha tersebut melainkan jika para pengarah berhasrat untuk mencairkan Dana atau memberhentikan operasi, ataupun tidak mempunyai alternatif yang realistik selain berbuat demikian.

Tanggungjawab Juru Audit untuk Audit Maklumat Kewangan

Objektif kami adalah untuk mendapat kepastian yang wajar sekiranya maklumat kewangan Dana secara keseluruhannya adalah bebas daripada salah nyata yang ketara, sama ada disebabkan oleh penipuan atau kesilapan, dan mengeluarkan laporan yang merangkumi pendapat kami. Jaminan yang wajar adalah satu tahap yang tinggi, tetapi bukan satu jaminan bahawa audit dijalankan mengikut piawaian pengauditan yang diluluskan di Malaysia dan Piawaian Pengauditan Antarabangsa akan sentiasa mengesan salah nyata yang ketara apabila ia wujud. Sekiranya ada, salah nyata boleh timbul daripada penipuan atau kesilapan samada, secara individu atau dalam agregat, mereka boleh dianggap penyebab yang mempengaruhi keputusan ke atas keadaan ekonomi berdasarkan maklumat kewangan ini.

Pengurusan audit adalah mengikut piawaian pengauditan yang diluluskan di Malaysia dan Piawaian Pengauditan Antarabangsa dan selain itu kami menggunakan pertimbangan profesional dan mengekalkan keraguan profesional di seluruh audit. Kami juga:

- Mengenal pasti dan menilai risiko salah nyata yang ketara ke atas maklumat kewangan Dana, sama ada disebabkan oleh penipuan atau kesilapan, membentuk dan melaksanakan prosedur audit responsif terhadap risiko berkenaan, dan mendapatkan bukti audit yang mencukupi dan bersesuaian untuk menyediakan asas bagi pendapat kami. Risiko untuk tidak mengesan salah nyata yang ketara akibat daripada penipuan adalah lebih tinggi daripada audit yang terhasil daripada kesilapan kerana penipuan mungkin melibatkan pakatan sulit, pemalsuan, pengabaian maklumat dengan sengaja, representasi salah nyata atau melangkau kawalan dalaman.

- Memperoleh pemahaman mengenai kawalan dalaman yang berkaitan dengan audit bagi tujuan merangka prosedur audit yang bersesuaian dengan keadaan, tetapi bukan bertujuan untuk menyatakan pendapat mengenai keberkesanan kawalan dalaman Dana.
- Menilai kesesuaian dasar Perakaunan yang digunakan dan kewajaran anggaran-anggaran perakaunan dan pendedahan yang berkaitan yang dibuat oleh para pengarah.
- Kesimpulan penggunaan asas perakaunan berterusan yang wajar oleh pengarah, berdasarkan bukti audit yang diperolehi samada ketidakpastian maklumat berkaitan yang wujud dengan peristiwa-peristiwa atau keadaan yang boleh menimbulkan keraguan yang besar ke atas keupayaan dan kebimbangan meneruskan Dana. Jika kesimpulan ketidakpastian didapati wujud, kami dikehendaki untuk menyatakan pendedahan yang berkaitan dalam laporan juruaudit maklumat kewangan Dana atau sekiranya pendedahan tersebut tidak mencukupi untuk mengubah pendapat kami. Kesimpulan kami adalah berdasarkan kepada bukti audit yang diperolehi sehingga tarikh laporan juruaudit. Walau bagaimanapun, kebimbangan peristiwa atau keadaan masa akan datang boleh menyebabkan Dana diberhentikan.
- Menilai pembentangan keseluruhan, struktur dan kandungan penyata kewangan Dana, termasuk pendedahan dan sama ada penyata kewangan Dana mewakili urus niaga asas dan peristiwa dengan cara yang mencapai pembentangan saksama.

Kami juga berhubung dengan para pengarah pengurus mengenai, antara lain, skop yang dirancang, masa pengauditan dan penemuan audit penting, termasuk apa sahaja kekurangan yang ketara dalam kawalan dalaman yang dikenal pasti semasa audit dilakukan.

Perkara-Perkara Lain

Laporan ini disediakan hanya untuk pemegang unit dan bukan untuk tujuan lain.

Kami tidak bertanggungjawab kepada mana-mana pihak lain terhadap kandungan laporan ini.

Nota-nota yang dilampirkan adalah sebahagian penting maklumat kewangan.

1. Pengurus dan aktiviti utamanya

Dana-dana Berkaitan Pelaburan Pengurus merangkumi Dana Seimbang, Dana Ekuiti, Dana Pendapatan, Dana Jati, Dana Dividen, Dana AsiaPac dan Dana Global Yakin (secara kolektifnya dirujuk sebagai "Dana-Dana")

MCIS Insurance Berhad, Pengurus Adalah sebuah Syarikat Liabiliti Awam berhad Yang Diperbadankan dan berdomisil di Malaysia dan dilesenkan di Bawah Akta Perkhidmatan Kewangan 2013. Kegiatan utamanya adalah pengunderitan Insurans hayat dan Insurans berkaitan-Pelaburan.

Maklumat kewangan telah diberi kebenaran untuk diterbitkan oleh Lembaga Pengarah Pengurus selaras dengan resolusi pada 16 March 2017.

2. Polisi-polisi perakaunan penting

2.1 Asas penyediaan

Maklumat kewangan Dana-dana telah disediakan selaras dengan polisi-polisi perakaunan yang dinyatakan dalam Nota 2.2 kepada maklumat kewangan dan Garis Panduan mengenai Perniagaan Insurans/Takaful Berkaitan Pelaburan yang diterbitkan oleh Bank Negara Malaysia ("BNM").

Maklumat kewangan telah disediakan di bawah konvensyen kos sejarah kecuali yang dinyatakan dalam polisi-polisi perakaunan penting dalam Nota 2.2 kepada maklumat kewangan.

Maklumat kewangan dibentangkan dalam Ringgit Malaysia ("RM").

2.2 Ringkasan polisi-polisi perakaunan penting

a) Pengiktirafan perolehan

Perolehan diiktiraf selaras dengan manfaat ekonomi yang dikaitkan dengan urus niaga yang berkemungkinan akan mengalir ke dalam Dana-dana dan jumlah perolehan boleh ditentukan dengan wajar.

- i) Pendapatan faedah dan keuntungan daripada pelaburan diiktiraf atas dasar akruan yang mencerminkan pulangan efektif aset.
- ii) Pendapatan dividen diiktiraf atas dasar diisyiharkan apabila hak untuk menerima bayaran telah ditetapkan.
- iii) Hasil bersih daripada jualan pelaburan ditolak dari purata wajaran kos pelaburan. Hasil keuntungan atau kerugian dimasukkan ke dalam penyata pendapatan dan perbelanjaan.

b) Yuran pengurusan

Yuran pengurusan dikenakan berdasarkan nilai aset bersih harian Dana berkenaan, pada kadar-kadar berikut:

Dana Seimbang	1.25% setahun
Dana Ekuiti	1.40% setahun
Dana Pendapatan	0.50% setahun
Dana Jati	1.35% setahun
Dana Dividen	1.50% setahun
Dana AsiaPac	0.85% setahun
Dana Global Yakin	0.85% setahun

c) Terbitan bersih unit-unit

Terbitan bersih unit-unit mewakili premium dibayar oleh pemegang-pemegang polisi sebagai bayaran untuk kontrak insurans baru atau bayaran seterusnya untuk meningkatkan amaun kontrak tersebut. Terbitan unit-unit diiktiraf atas dasar penerimaan.

d) Pembatalan bersih unit-unit

Pembatalan bersih unit-unit mewakili pembatalan unit-unit daripada Penyerahan dan pengeluaran. Pembatalan unit-unit diiktiraf apabila kontrak insurans berkaitan diserahkan.

e) Cukai pendapatan

Cukai pendapatan ke atas lebihan atau defisit bagi tahun merangkumi cukai semasa dan cukai tertunda. Cukai semasa adalah jangkaan amaun cukai pendapatan yang perlu dibayar ke atas pendapatan boleh dicukai bagi tahun dan ditentukan menggunakan kadar cukai yang telah digubal pada tarikh laporan.

Cukai tertunda disediakan menggunakan kaedah liabiliti. Pada dasarnya, liabiliti cukai tertunda diiktiraf untuk semua perbezaan semasa yang boleh dicukai dan aset cukai tertunda diiktiraf untuk semua perbezaan sementara yang boleh ditolak sehingga adanya kemungkinan di mana keuntungan boleh dicukai dapat diperolehi ke atas perbezaan sementara yang ditolak boleh digunakan.

Cukai tertunda ditentukan pada kadar cukai yang dijangka akan digunakan dalam tempoh apabila aset direalisasi atau liabiliti diselesaikan, berdasarkan kadar cukai yang telah digubal atau sebahagian besarnya digubal pada tarikh laporan. Cukai tertunda diiktiraf di dalam penyata pendapatan dan perbelanjaan, kecuali apabila ia timbul daripada urus niaga yang diiktiraf secara langsung di dalam akaun pemegang-pemegang unit, di mana cukai tertunda juga dikenakan atau dikreditkan secara langsung di dalam akaun pemegang-pemegang unit.

f) Aset kewangan

Aset kewangan diiktiraf dalam penyata aset dan liabiliti apabila Dana-dana menjadi pihak kepada peruntukan berkontrak instrumen kewangan.

Apabila aset kewangan diiktiraf pada awalnya, ia diukur pada nilai saksama ditambah, untuk aset kewangan yang bukan pada nilai saksama melalui keuntungan atau kerugian, secara langsung boleh dikaitkan kepada kos urus niaga.

Dana-Dana menentukan pengelasan aset kewangannya semasa pengiktirafan awal, dan kategorinya termasuk aset kewangan pada nilai saksama melalui keuntungan atau kerugian (“FVTPL”) serta pinjaman dan penghutang (“LAR”).

i) Aset kewangan pada FVTPL

Aset kewangan dikelaskan sebagai aset kewangan pada FVTPL sekiranya ia dipegang untuk dagangan atau ditetapkan sedemikian semasa pengiktirafan awal. Aset kewangan dipegang untuk dagangan termasuk sekuriti hutang, sekuriti ekuiti dan unit amanah serta dana amanah harta.

Selepas pengiktirafan awal, aset kewangan pada FVTPL diukur pada nilai saksama. Perubahan dalam nilai saksama instrumen kewangan direkodkan sebagai ‘keuntungan/kerugian modal tidak direalisasi’ dalam penyata pendapatan dan perbelanjaan. Faedah diterima dan pendapatan dividen direkodkan secara berasingan sebagai ‘pendapatan faedah/keuntungan’ dan ‘pendapatan dividen’.

Nilai saksama sekuriti ekuiti disebut harga dan dana dagangan bursa disebut harga ditentukan dengan merujuk kepada harga bida penutup disebut harga di Bursa Malaysia Securities Berhad dan Bloomberg Limited Partnership.

Nilai saksama sekuriti hutang tidak disebut harga ditentukan dengan merujuk kepada harga pasaran indikatif yang diperolehi daripada Bondweb yang disediakan oleh Bond Pricing Agency Malaysia (“BPAM”).

ii) LAR

Aset kewangan dengan bayaran tetap atau boleh ditentukan ini yang tidak disebut harga dalam pasaran aktif dikelaskan sebagai LAR. Dana termasuk deposit dengan institusi kewangan, tunai di bank dan penghutang jangka pendek di bawah pengelasan ini.

Selepas pengiktirafan awal, LAR diukur pada kos dilunaskan dengan menggunakan kaedah faedah efektif. Keuntungan dan kerugian diiktiraf di dalam penyata pendapatan dan perbelanjaan apabila LAR tidak lagi diiktiraf atau merosot nilai, dan melalui proses pelunasan.

g) Kemerosotan nilai aset kewangan

Dana-Dana dinilai pada setiap tarikh laporan sama ada terdapat sebarang bukti objektif bahawa aset kewangan yang dikelaskan sebagai LAR telah mengalami kemerosotan nilai.

Untuk menentukan sama ada terdapat bukti objektif bahawa kerugian kemerosotan nilai ke atas aset kewangan telah ditanggung, Dana mempertimbangkan faktor-faktor seperti kemungkinan tidak mampu bayar atau kesukaran kewangan ketara penghutang dan keingkaran atau kelewatan ketara dalam pembayaran.

Sekiranya terdapat bukti sedemikian, jumlah kerugian kemerosotan nilai diukur sebagai perbezaan di antara jumlah dibawa aset dan nilai semasa anggaran aliran tunai masa hadapan didiskaunkan pada kadar faedah efektif asal aset kewangan. Kerugian kemerosotan nilai diiktiraf di dalam penyata pendapatan dan perbelanjaan.

Jumlah dibawa aset kewangan dikurangkan melalui kerugian kemerosotan nilain secara langsung untuk semua aset kewangan.

Sekiranya pada tahun berikutnya, jumlah kerugian kemerosotan nilai berkurangan dan pengurangan tersebut boleh dikaitkan secara objektif kepada peristiwa yang berlaku selepas kemerosotan diiktiraf, kerugian kemerosotan nilai diiktiraf sebelum ini diterbalikkan setakat jumlah dibawa aset tidak melebihi kos dilunaskannya pada tarikh keterbalikan. Jumlah keterbalikan diiktiraf di dalam penyata pendapatan dan perbelanjaan.

h) Liabiliti kewangan

Liabiliti kewangan dikelaskan mengikut kandungan perjanjian kontrak yang ditandatangani dan definisi liabiliti kewangan.

Liabiliti kewangan diiktiraf di dalam penyata aset dan liabiliti apabila, dan hanya apabila, Dana-Dana menjadi pihak kepada peruntukan berkontrak instrumen kewangan. Liabiliti kewangan dikelaskan sebagai lain-lain liabiliti kewangan pada nilai saksama melalui keuntungan atau kerugian atau pada kos dilunaskan, sebagaimana wajar.

Lain-lain liabiliti kewangan Dana-Dana yang merangkumi lain-lain pembiutang diiktiraf pada awalnya pada nilai saksama dicampur kos transaksi yang dikaitkan secara langsung dan kemudiannya diukur pada kos dilunaskan dengan menggunakan kaedah faedah efektif.

Liabiliti kewangan tidak lagi diiktiraf apabila obligasi di bawah liabiliti dilupuskan. Keuntungan dan kerugian diiktiraf di dalam penyata pendapatan dan perbelanjaan apabila liabiliti tidak lagi diiktiraf, dan melalui proses pelunasan.

i) Akaun pemegang-pemegang unit

Akaun pemegang-pemegang unit Dana-Dana mewakili instrumen ekuiti di dalam penyata aset dan liabiliti.

j) Transaksi matawang asing

Transaksi dalam matawang asing pada awalnya direkodkan mengikut kadar mata wang digunakan semasa pada tarikh urus niaga. Aset dan liabiliti monetari didenominasikan dalam matawang asing ditukarkan semula pada kadar pertukaran matawang digunakan yang ditetapkan pada tarikh pelaporan. Semua perbezaan dimasukkan ke dalam penyata pendapatan dan perbelanjaan. Perkara bukan monetari berdenominasi di dalam matawang asing yang diukur pada kos sejarah ditukarkan menggunakan kadar pertukaran pada tarikh-tarikh awal transaksi.

Perkara bukan monetari diukur pada nilai saksama di dalam matawang asing ditukar menggunakan kadar pertukaran pada tarikh di mana nilai saksama ditentukan. Semua perbezaan pertukaran asing dimasukkan ke dalam penyata pendapatan dan perbelanjaan, kecuali bagi perbezaan yang berkaitan dengan perkara di mana keuntungan atau kerugian diiktiraf secara langsung di dalam akaun pemegang-pemegang unit, dan dengan itu, keuntungan atau kerugian diiktiraf bersih daripada komponen pertukaran di dalam akaun pemegang-pemegang unit.
